

Lake Norman Charter Elementary School Clubs

Kindergarten through 4th grade students are assigned a club from one of their three choices after participating in a club interest selection during the school day. Club Day at the elementary school is intended to promote leadership, friendships, and new experiences for our students. We are excited to provide this experience for our students once a month during September, October, December, February, April, and May.

Student Council: The Student Council is a group of students from grades 2 to 4 who work together to help make our school a better place. Members are elected by their classmates and meet regularly to share ideas, plan fun activities, and help with school events. It's a great way to practice leadership, teamwork, and kindness while making a difference in our school community!

K-2 Clubs

Card Making Club- Get creative in our Card Making Club! We'll design fun, colorful cards for holidays, birthdays, and special occasions to brighten someone's day. Whether you love drawing, writing sweet messages, or crafting with glitter and glue, this club is the perfect place to have fun and make others smile. All supplies provided—just bring your imagination!

Coloring Club- Grab your crayons and let's make magic! We'll color our own bookmarks, learn to create bright star bursts, and try all kinds of colorful, fun surprises. Every club session will be full of bright colors, big smiles, and awesome artwork!

Craft Club- Are you ready to unleash your imagination? In Craft Club, we will explore multiple activities to create fun crafts you can even do at home! Students will have the opportunity to work with everyday supplies, collaborate with friends, and showcase their masterpieces. Whether they are beginners or experienced crafters, everyone is welcome to express their creativity and have a blast!

Glee Club- Come join us to sing and perform all your top favorite songs. We love planning a group performance together for our exciting pep rally at the end of the school year!

International Club- Welcome to "International Club", where every meeting is a passport to adventure! Each club day, a special guest—one of our amazing parent volunteers—will take us on a journey to explore their home country and culture. From learning fun phrases in different languages to dancing to global beats and hearing exciting stories from around the world, every club day is a new chance to celebrate the incredible diversity in our own school community!

Karaoke Club- Whether you're a shy singer or a born performer, students have a blast in Karaoke Club. It's a joyful and happy space to move our bodies and sing along as we read lyrics to our favorite songs.

Maker's Club- Calling all young artists and creative minds! Join us for Makers Club, where imagination meets hands-on fun. Each club, we'll start with a simple guided craft project to spark inspiration, then students will have the chance to explore and create their own masterpieces using a wide variety of craft supplies. Whether your child loves to cut, glue, color, or build, Makers Club is the perfect space to express creativity, try new things, and make something uniquely their own. Let's make, create, and have fun together!

Schnitzel Sprouts- Join us for an exciting adventure into the world of German language and culture! In this playful club for K-2, we'll explore basic German words and phrases through songs, games, and hands-on activities. We'll learn how to greet each other, count, talk about colors, and so much more! Come ready to play, learn, and say "Hallo!" to German!

Science Club- Love to participate in incredible hands-on experiments and other science related activities? Students at LNC get to explore the scientific method first hand while conducting various experiments throughout the year. Students will also participate in some STEM activities where they will engage their engineering minds creating bridges, traps, and other fun creations. Keep calm and put your lab coat on!

Speed Stacking Club- Speed Stacking is an activity or sport that works our speed and agility of our fine motor skills! The goal of speed stacking is to stack the specific speed stacking cups in a certain pattern, called The Cycle in the fastest time that you can! We will be learning how to complete THE CYCLE in Speed Stacking! Once we have mastered The Cycle, we will be participating in relay races and timed competitions with our other club members to see who will be our Speed Stacking Champion of the month!

Tap Dance Club- Welcome to Tap Club, where little feet meet big rhythms! This exciting club is perfect for elementary-aged kids who love to dance, make noise, and have fun. In Tap Club, kids will learn the basics of tap dancing, including how to create cool sounds with their taps and how to combine steps into fun routines. Our friendly instructors will guide them through each step, making sure they feel confident and excited. Through playful activities and energetic routines, kids will develop rhythm, coordination, and a love for dance. Join Tap Club and let your feet do the talking as you discover the joy of tapping and dancing!

Wow! Drawing Club- Welcome to the Wow Drawing Club for K-2 students! Each club day is packed with fun as young artists explore their creativity by drawing exciting, silly, and sometimes challenging items. From wild animals to imaginary worlds, every session brings a new surprise that helps students grow their confidence and artistic skills. It's all about having fun while learning to express big ideas through drawing!

3-4 Clubs

Audio Visual Club- The Audio Visual Club will use electronic media combined with sound and visual components. Some types of Audio Visual technology that can be used include: Ipad,

Interactive whiteboards, iMovie, stop motion technologies, and multimedia learning environments.

Baton Club- The Baton Club teaches students the art of baton twirling. Whether it's a world champion twirler or a high school majorette, they all started somewhere. The baton twirling club hopes to be the "somewhere" that could inspire the next generation of twirlers!

Fashion Design Club- Students will challenge themselves to create fun, out of the box clothing designs using textured crafting paper and fabric. We will start with 2 dimensional designs on card stock and move to 3D wearable outfits as the year goes on and we explore recycle, repurpose, and reuse concepts in clothing. If the club is interested, we may even host our first LNCES Fashion Show at the end of the year!!! KN student volunteers from the HS will partner with our 3rd and 4th grade Knights to keep the energy and creativity flowing! Each club day will start with a fashion theme, then it's up to the participants to make the magic happen. NYC Fashion Week, here we come!

Friendship Bracelet Making Club- The Friendship Bracelet Making Club is a fun and creative space where students can come together to design and share bracelets. Members will learn different patterns and techniques while expressing their individuality through colors and styles. The best part is that bracelets can be exchanged with friends as a symbol of kindness, encouragement, and connection. This club is a great way to build friendships, practice creativity, and spread positivity throughout the school.

Gaga Ball Club- Come play one of the fastest, most exciting games around! In the Gaga Ball pit, you'll duck, dodge, and aim to tag other players below the knees with the ball. We'll practice skills, play friendly matches, and have lots of laughs. Whether you're a pro or brand new, everyone is welcome!

Kickball Club- The third and fourth-grade students will work together in teams of about 10 to learn the fundamentals of kickball. The goal is to have fun and exhibit great sportsmanship!

LEGO STEM Builders Club- The LEGO STEM Builders Club invites third and fourth graders to explore science, technology, engineering, and math through exciting hands-on building challenges. Meeting once a month, students will work together to design creative solutions to STEM-inspired problems—such as building strong bridges, testing balloon-powered cars, or creating simple machines. Each session encourages teamwork, problem-solving, and innovation while giving students the chance to think like real engineers. With just one meeting a month, every challenge is packed with fun, creativity, and discovery!

Magical Puzzle Club- Do you love solving puzzles of all kinds, and amazing your friends with cool magic tricks? Join the Magical Puzzle Club, where 2nd, 3rd and 4th graders get to stretch their brains and have fun at the same time. Each meeting, we'll work together to crack a variety of different types of puzzles, like jigsaw, logic, brain teasers, and riddles that challenge your thinking in creative ways. You'll also learn beginner-friendly magic tricks that use cards, coins,

and everyday objects-perfect for showing off to your family and friends. This club is all about curiosity, problem-solving, and a little bit of mystery. Come ready to think, laugh, and be amazed!

Origami Club- Come learn the art of paper folding! At our origami club, you'll discover how to transform a simple sheet of paper into amazing creations, from jumping frogs to boats to fish. Join us to make new friends and create incredible paper art you can take home!

Pickleball Club- Welcome to the Pickleball Club! Our club is a fun and inclusive environment where students can learn and enjoy the exciting game of pickleball. Open to students in 3rd-4th grade, our club focuses on teaching the basics of the game, including rules, techniques, and good sportsmanship. Members will have the opportunity to participate in basic skills, friendly matches, develop their hand-eye coordination, and make new friends along the way!
