They're okay; he's a bit boney, so there's not much of anything to caress, but it's better than nothing. I'm not the biggest fan of feeling rib cages when I'm trying to indulge in soft, booby goodness.

Hyung:8.5/10

Your standard, beautiful, GOOD breasts. Soft to the touch. Recently Hyung's been eating a lot of meat buns so he's getting a bit of chub fat, not a bad thing though. He's also got a small frame which is awesome in my opinion. Hyung used to hit me when I grabbed them, but now he totally spoils me way too much cuz he loves me wayyyy too much . so he's easy to take advantage of! A go to for convenient breast groping!

Bonus points for nice soft ass, by the way.

Russia: 0.2/10

Please dont please fuck shibal oh nonononono no dont don t trust them tno im so cscare im hiding int eh closet right no oh my god help me oh my god oh my god ho ymgo d shibal also theyre rock hard not soft shit

America: 7/10

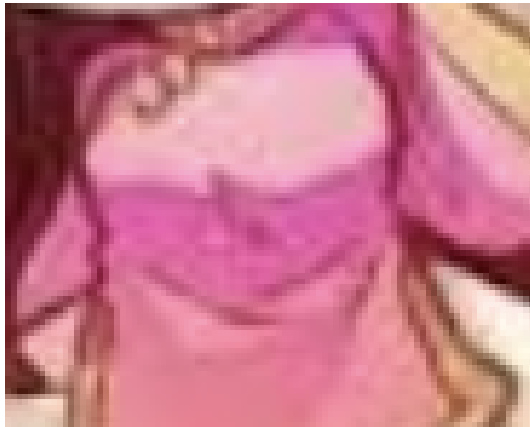

Honestly? They're pretty good. He eats a lot of burgers, so they're soft and full of fat and perfect to pillow on. But he's also buff half the time so you never know when it's hard or soft. Anyway, it's soft on the surface, but when you lie your head onto them goobies you can feel how hard his actual chest is.

Ukraine: 7/10

You might think, "oh wow yongsoo why don't you give a 10 those boobs look so big whyd you only give a 7" well NO. Because big doesn't equal GOOD. Breasts that are too big are satisfying at times but at other times they're just.. Suffocating, almost. And you can't grab it all with your hands. You also can't pillow on them because you'll die of suffocation(even if it may feel satisfying at first).

All in all though, her boobs are awesome. Solid 7/10. Soft to the touch.

Taiwan: N/A

I wasn't allowed to touch them. Got hit by hyung.

Update: 8/10

Small frame. Medium sized cup. Round and a little perky. Soft and squishy and awesome.

Hong Kong: 4.5/10

Ehh, they're okay. I mean, he's a bit to the bonier side, but he's pretty average, and he doesn't accumulate fat at his chest as much as hyung or america. I'd only go if it was an emergency but he'd beat the shit out of me so. Only done it twice.

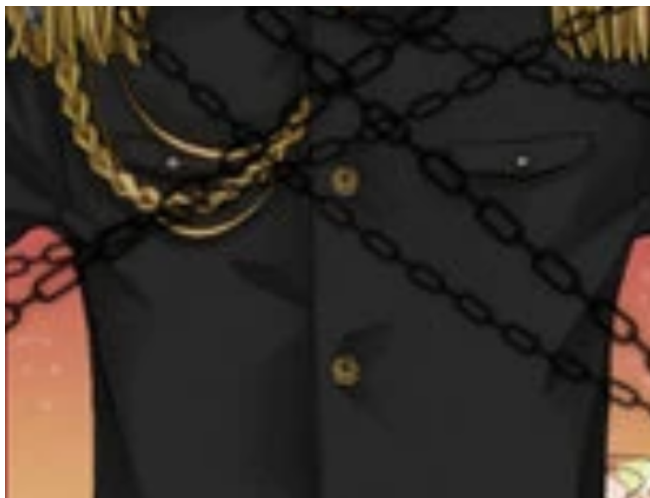

Macao: N/A

I got beat by hyung. Also he's scary. He looks so serious all the time.

Prussia: 6.5/10

Theyre a bit hard at the base but muscles are always great cushions. Just the perfect amount of soft.

Kuro: 4.3/10

A teensy bit more soft than kiku's, I guess.

He can eat a bit more.

His attitude kind of turns me on though.

Not much to say. Refer to Japan's.

Germany: 6.5/10

Refer to prussia.

They are very similar. Muscley, perfectly soft, but firm. Good cushion. If i had to say their difference , id say prussia is a tiny bit firmer.. but both are great. Both have their pros and cons. So i wouldnt compare them that much.

@KillVeneziano: 1/10

👤👤👤👤 do i even need to explain?

Their SHIRT is sagging. Just this detail alone explains the flatness and absolute 0 structure of their breasts.

Would be hard as wood floor. Not good ! No no no! I feel my bones shivering just at the thought of bone !!! 끔찍해! 나빠! 안타까워!

Romano:8/10

Better than expected, actually. Like hyung, his figure is on the smaller side(compared to me). He's got more fat than hyung though, and it's nice because he doesn't have an overwhelming amount of chub while still maintaining the same soft goobie boobie goodness. I can also hold them in one go or use as a head cushion. I love them.

Turkey: 5-6/10 depending if shaved
Sorry i just dont like the hair. I stand with shaved glossy breasts.
Muscle feels firm and good for cushion.
His frame is a bit big for me, though.

Singapore:3.5/10
Kind of flat. His frame isnt huge though, so thats a plus.
Talk to me when you gain more muscle.

Estonia:-9/10

LAME!!!! FLAT!!!! BAD!!!! EMBARRASSING!!! 끔찍해! 나빠! 안타까워!

Indonesia-6/10

Mmm good boob... very good. Manly. Again, it's got a good cushion– without the stress of hitting bones when you rest on them, these are my favorite types of boob... and not heavy enough that they suffocate... so good.

Also his shirts wet. hawt

Malaysia: 4/10

Could do some muscle training with emphasis on the chest! It's a little flat for my liking, but it looks soft to cushion on. I assume it's similar to a regular sofa cushion!

Overall pretty standard! Not soft enough is all.
