What Went Right

- Time & Date, Sunday Morning in Summer. Plenty of time for people to come out, at a convenient time.
- Weather, A B-E-A-Utiful Sunny Day.
- Great Turnout, 20 Tesla Vehicles.
- Coordination between Tesla Owners Club New York State & Delaware Valley Tesla Owners Club
- McDonalds Parking Lot, plenty of room for us to gather and meetup beforehand, and short distance from Six Flags to convoy to.
- The Animals, great variety of Animals to see.

What To Do Better

- Booking Group Sales Tickets. Lots of complications and issues with Venue.
- Communication, have everyone sign up and join Zello Channel for communication during Safari.
- Regroup after going in. After a couple of the checkpoints, we weren't able to maintain a full 20 Vehicle Convoy. There were places to pull over before we got to animals, where we could've regrouped.
