

Tatsumi(Breloom)'s **Point System**

Oh, Hello!

Tatsumi here, and back with an new and fresh and whatever system. Made by ~~megaslowbro~~ me, I will now be adding a point system to all my Tours! I'll post a **Leaderboard** at the end of this document, displaying the player's **Ranking** according to their number of points. People won't get prizes (soz, im poor, and i think it's breaking the rules) but at least you'll be able to boast to all of your internet fwends!

To explain how this works, I have to tell you what Seasons are. Seasons are the three months after I have started making tournaments. For example, If I started on the 26th of May 2016, I would end on 26th of August 2016. At the end of each season, there will be a counting of points, and the winners will be announced. These records will be saved, and the top 4 highest scores will be added to the HALL OF FAME. Have any questions? PM me!

Another important note: Only have 1 alt (username that you have) enter my tours please. I will not be combining the points of your two alts. With that being said, if your challonge name is different from you showdown name, please change one of them to match. Random numbers after your name is ok on either challonge or on showdown. It is prefered if that name is already taken to add random numbers.

Please Turn Over.

Here is the Point System if u succeed in my tours:
