RE: Memorandum on Addition of a Boys Volleyball B-Squad (Booster-Funded)

Request:
Add a B-Squad level for the Boys Volleyball team that would be funded by the booster club.

Rationale:
We had a very successful first year of boys' volleyball as a school-sponsored activity. The numbers continue to rise, and we expect to have a large number of students interested again this year. The boosters would cover this program for a minimum of 3 years to monitor growth in the program before coming to the district to ask for the program to be funded by the district.

Cost:
The B-squad volleyball coach is paid 8% (group 5) on the STMA Certified Contract. This would result in a salary of between $3785 - $5385 depending on experience.
The boosters would also pay required payroll taxes, TRA (if applicable), etc., which normally adds around 18% to the salary. There would be no cost for transportation as they would ride a bus with the JV and Varsity teams to competitions. The boosters would also cover the additional $80 for officials for the 7 home meets ($560) in addition to entry fees and transportation for any tournaments the B-Squad would enter.
