Following ongoing discussion on the Ronin Scholars [Google Group](#)
this editable document (please make your contribution and comments) gathers initial thoughts on an action plan to seek and act
upon legal advice to prevent the closure of RI And to replace the outgoing board,

If these actions are not fruitful, we may decide to hire a legal representative if we have capacity to do so

To give your availability to serve as board member or other capacity, please [give your availability](#)
Even if the boards would like to resign effective immediately, cannot do so until a new board is in place
It is therefore important to have board candidates, preferably with some experience
