

# Akvelon Inc.

## Position: Mid Fullstack SDE

### About us

**Akvelon Inc (USA)** works in the field of software engineering based on a variety of technologies. Our company is a member of the vendor program, which gives employees the opportunity to work with clients in the United States and other countries (**Microsoft, Facebook, Airbnb, Dropbox, Pinterest**, and many others). This is a great opportunity to transfer experience and experience with leading engineers of world-renowned companies.

### About project

Our client has a complex solution for business analytics with interactive visualizations and business intelligence capabilities. Many big companies started using this platform by migrating their existing reports and dashboards. Still, the visualization set is currently limited to basic charts only such as Table, Column Chart, Line Chart, etc. To extend the visualization set and make the transition from other solutions simpler our client introduced an API for developing visualizations with rich capabilities that can meet certain requirements. The Akvelon team supports this API, builds sample visualizations, and helps a growing community of visual developers.
