## **Ground Rules:**

Topics for discussion at group conscience must be sent via email before the meeting. We will go in order of the submission of topics, whomever submitted the motion for the topic will have an opportunity to explain their item for discussion. If you would like to add

something **DIFFERENT** than what has already been said you will raise your virtual hand. Contributions to the discussion must be spoken only and everyone that has something different to add will have an opportunity to speak if they desire. Once everyone has had an opportunity to speak on discussion, we will need someone to motion to vote and someone to second that motion. Once a motion is up for vote you will be prompted on your screen to make your selection. You can vote yes, no, or abstain. **You must vote if present in the room. If you leave the room, it is locked, and you will not be able to reenter.** Remember to try and keep your turn only to a few minutes as much as possible when discussing a motion that has been presented. This group conscience will go for one hour only so please be mindful of the other members. Decisions shall be reached transparently by discussion, vote, and whenever possible by substantial unanimity. **Minority discussion is allowed again after a vote if someone from the minority side decides they want to do so. They MUST raise their virtual hand within a timely manner to do so.**

### **Old business:**

- Presentation of what was decided for the 7<sup>th</sup> tradition digital basket and then a vote from the group if this will be allowed to pass forward as the committee suggests
