Subject: Report to the School Board

Dear School Board

Technology Department submits the following report:

Peake Elementary School

Peake's new video server will be installed during spring break. **Done!**

Goza Middle School

Internet connection is now at Goza Middle School.

District Wide

Erate has been submitted. We are awaiting funding commitments for USAC. ATT phone service is in the process of moving to Goza Middle School. The dark fiber line between the old Technology Building and AHS is also in the process of moving to Goza Middle School and Peake Elementary Schools.

Technology Department

Technology has moved our offices to the Support Service Center. Some of the network servers are still in the old building. The STS recycling service has picked up most of our e-waste. We have also sold large lots of computers on government deals. We are waiting for vendors to move the last two fiber services. Our network servers will be moved soon.

Sincerely

Joey Andrews – Technology Coordinator.
