Adjust Font Scaling

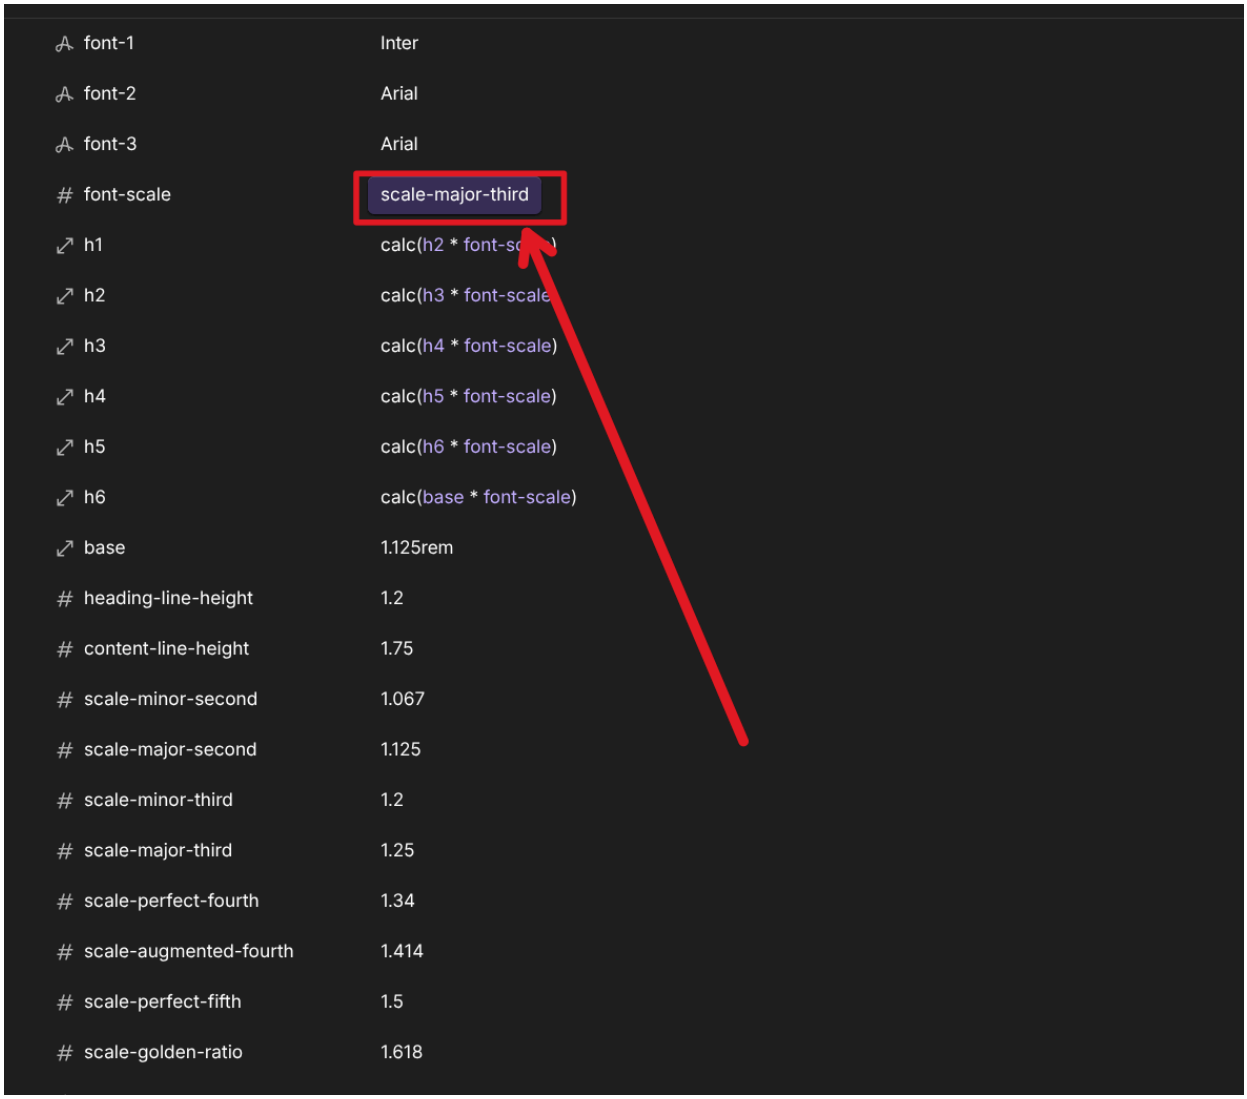

On Webflow Designer’s left side, Click the variables icon. Please see the image below.

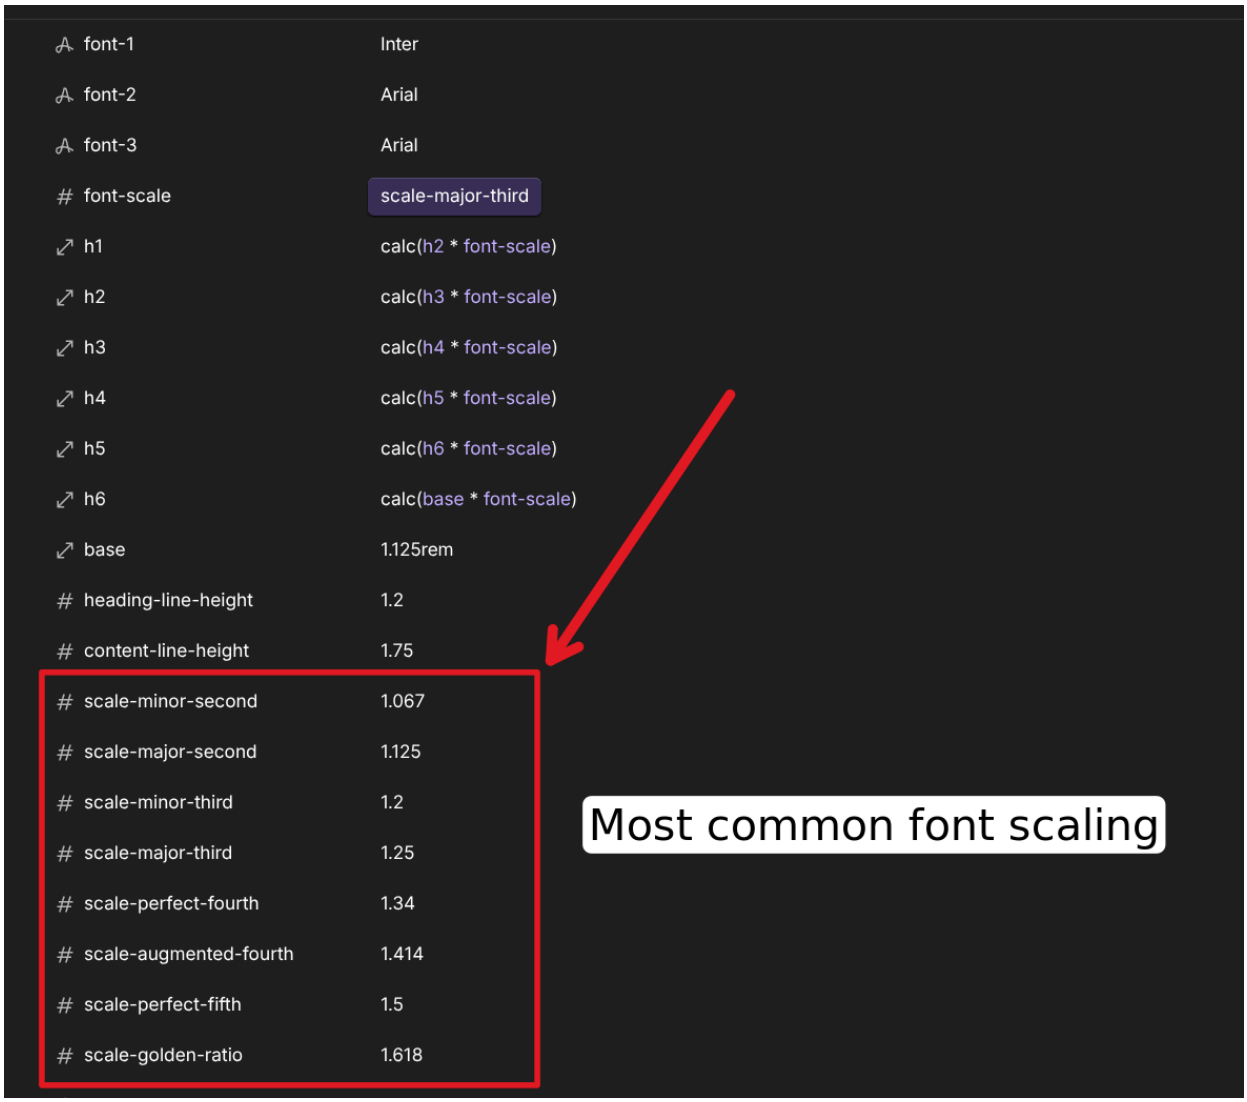

On CSS Variables, click the “Typography” tab. Please see the image below for reference.

On the “font-scale” variable, adjust the value. Please see the image below for reference.

I've added the most common major scaling and you can try them or select them as the value of "font-scale". Please see the image below for reference.

font-1 Inter
font-2 Arial
font-3 Arial
font-scale scale-major-third
h1 calc(h2 * font-scale)
h2 calc(h3 * font-scale)
h3 calc(h4 * font-scale)
h4 calc(h5 * font-scale)
h5 calc(h6 * font-scale)
h6 calc(base * font-scale)
base 1.125rem
heading-line-height 1.2
content-line-height 1.75
scale-minor-second 1.067
scale-major-second 1.125
scale-minor-third 1.2
scale-major-third 1.25
scale-perfect-fourth 1.34
scale-augmented-fourth 1.414
scale-perfect-fifth 1.5
scale-golden-ratio 1.618
