

FNews Presentation – Financial Literacy

You will have 2-5 minutes at the beginning of class to present on a current topic in the financial world. Please have a Presentation (in your shared folder) or an article from a newspaper or magazine (website). You will explain to us the information and tell us of any current events. Please be familiar with your presentation so you don't just sit and read it to us. Be prepared to possibly answer questions on the event/news from the class or Mr. Potter. No videos are allowed for this presentation, but you still need to have visual effects, pictures, color etc.

**If you are unable to be in class on your assigned date, you need to find someone in class willing to trade you days.*
