

Online Booking

Please find below the details to allow your hirers to book Club Sites online. Please keep this code confidential – it **should not** be put on your website or on any public documentation and should only be given to Customers who are hiring a unit.

UKMHIRE

This code should be entered as a one-off promotional code when your customer is going through the online booking system. They therefore do not need a membership number. The Club reserves the right to remove these codes at any time if they are misused or there is evidence that these are being shared.

Your customer will go through online booking as a non-member. They enter all the details as usual (site, unit size etc).

Before they confirm/pay, if they can check the amount, then add the discount code UKMHIRE

This discounts the price down to the appropriate member rate PIC BELOW. We would rather these codes were provided verbally by yourselves rather than listed down in writing, and as mentioned above, please do not put these codes on your website (you can say that you have online codes available on request).

The code can also be quoted when booking via the Service centre on 02476 475426.
