

Classroom Rules

Classroom rules are a fundamental part of a class.

Your child participated in a "Back to School Escape Room" to decode our FOUR universal classroom rules. They walked around the room "breaking codes". Students were required to think outside of the box using critical thinking skills and team work.

Our rules are as follows:

1. Listen and follow directions
2. Respect your classmates and teacher
3. Raise your hand before speaking
4. Keep your hands and feet to yourself

Please sign below stating you and your child have read and understand the rules.
