Before working with Garin, he had spent three months doing his own outreach and sending hundreds of personalized looms only to land 2 meetings that didn't close, as any rational person, he realized that this wasn't a sustainable way to do things so he started looking for a virtual assistant to delegate the outreach to.

A friend ended up referring me to him as we have a community of trained appointment setters and we ended up jumping on a call, during which I showed Garin some of our past results and he decided to sign up!

In order to help Garin sign his first customer, we not only placed a trained virtual assistant in his agency but we got him to implement our six figures in sixty days outbound prospecting campaign!

Current state

We connected after he had responded to one of my instagram story where I was critiquing a guru's new offer which he found funny since he had bought a solution from that expert which wasn't working as promised for him.

That solution was email outreach, Rich was relying solely on email outreach to acquire meetings and he realized that it had hit a ceiling, so he came to us looking for a better, more scalable & predictable client acquisition process.

A few months later, Rich grew his MRR from \$13,000 to \$37,000. We helped him train his virtual assistants, leverage Instagram as new outreach channel, leverage personalized video sales letters and meetings started raining down.

Dreams state

After joining the Half a Mill Program, I was able to consistently scale my DFY Ads Agency to \$35,000+/month, even hitting a \$8,000/day in cash collected which was in total \$32,000 of contracted revenue.

Thanks to the Half a Mill Program and the Clientacquisition.io team, I was able to close my first consulting client at \$1,750/month, which was then followed suit by another at \$2500/month. They really showed me that age is just a number, at 14 I can close deals easier than I can get a car ride to go to the doctor.

Only 4 days after joining the Half a Mill Program, I woke up to a Stripe notification. I closed a client on a \$1,500/project at \$500 a week for 3 weeks. Couldn't be happier!

I was able to close my first ever client at \$4,000/month + 10% ROAS and not even a month later, my second client at \$2,000/month + 10% ROAS. It's crazy how easy sales are when you have the right systems in place!

After barely 3 weeks of joining the Half a Mill Program, me and my business partner Axel have closed over 5 clients and surpassed our goal of \$10,000/month with our agency! We are aiming even higher in the new year.

Just a couple weeks after joining the program, I was able to book 5 meetings in 1 week! Those sales calls turned into 2 paying clients: both at \$1,500/month for 3 months. In total, \$9000 contracted in just a few weeks.

Thanks to the modules on content creation in the Half a Mill Program, I was able to create content for my target niche and spark interest in multiple 7-figures business owners. I've since scaled my agency over the \$20,000/month mark.

Within a few weeks of joining the program, I closed a client for £16,000 over 3 months and then a website client for £12,000 + VAT within the same week! That makes this a £28,000+/week for my agency.

Thanks to the mindset, perspective and decision-making modules in the Half a Mill Program, I was able to scale my agency from \$15,000/month to \$30,000/month in just 6 weeks. That is \$15,000 extra in Monthly Recurring Revenue in a little over a month.

Thanks to the Half a Mill Program and the Community's support, just a few days after signing a £4,000 client, I closed another at £1,400/month! That's over £5,400+ (including the ROAS deals) in less than a week.

A little recap over the last couple of months with the Half a Mill Program: I closed 2 clients on the same day back in August, both for \$1,500/month + 7% ROAS for 3 months. In October, I closed another for \$2,000/month + 10% ROAS for 4 months. In total contracted revenue we are at over \$20,000 including the ROAS deals. My agency has skyrocketed!

Thanks to the Half a Mill Program strategies on leveraging audiences, I was able to hit \$7,000/month with my agency in July 2021. I was later able to get 2 back to back \$10,000/months in November and December, 2021.

After changing and perfecting my Niche, I was able to scale my TikTok agency from \$0/month to \$60,000/month in just 7 weeks! That's almost \$700,000/year in a little over a month.

Subject Line: The Secret “Agency-Scaling” Modules For Email Outreach

Have you wasted multiple months email-outreaching just to land 1 to 3 meetings with prospects?

Doing hundreds or EVEN thousands of personalized email outreaches...

Coupled with hundreds of personalized loom videos...

Just to end up not closing ANYONE of them?

That's because you're missing [these single “Agency-Scaling” key modules](#) for systemizing email outreaches.

You see, without the *right* system in place...

You'll always have a hard time getting in ANY sales.

My clients understood the key principle behind having systems in place and look what they have to say:

After barely 3 weeks of joining the Half a Mill Program, me and my business partner Axel have closed over 5 clients and surpassed our goal of \$10,000/month with our agency! We are aiming even higher in the new year.
