## Introduction

The following prices are estimates based on average for the breed. Price is subject to change based on temperament, frequency of grooming, matting, etc. The prices below include washing, conditioning, drying, nail trimming, and ear cleaning. We prioritize the comfort and safety of your pet; if the price or grooming requirements deviate from the expectation we initially set, we will reach out to you to discuss the changes.

## Matting And Grooming Information

Matting Explained: If a comb can't move through your pet's coat and gets stuck, it indicates matting. Matting can obscure underlying issues such as sores, skin irritation, or rashes. These problems may only become apparent after the matting is removed. Bellyrub Inn and Groomery is not liable for any skin issues or injuries that become visible once matting is removed. While we take all necessary precautions, issues such as nicks, clipper irritation, or redness may occasionally arise. After removing mats, your pet's skin might appear irritated or red. This is a normal reaction as the skin adjusts and should not be mistaken for intentional harm. To prevent exacerbating any irritation, keep your pet from licking or scratching the affected areas.
