

LITTLE BITS

This project is to understand how circuits work in the design/inventing process.

Beginner: Get started by watching Youtube tutorials and looking at resources to understand how the circuits work and how to use them. Play/tinker to get it to work.

Skilled: Design/invent something powered by littlebits

Expert: Design/invent something that solves a problem powered by littlebits

Resources: Resources that will help you along the way

- YouTube ([Search Tutorials](#))
- [Invention Ideas App](#)
- [Little Bits Project Ideas](#)

***Remember: you must document your learning process**
via video reflection, blog, etc.
