

pending comps. saved anime/manga etc etc

!important! *This doc used to be only for our admins to write down what we're working on or to "save" animes we'd like to do comps of someday!*

Since some people might be curious abt whether we'll do their request or not or are just simply interested which comps we're currently working on, we decided to put this link in our carrd!

so keep in mind:

→ even if we wrote down an anime (or manhwa/manga), it doesn't mean that we'll 100% make comps of it! we might lose motivation/interest after a while and end up deleting them from this doc! so: check from time to time if we deleted the anime (etc) or not and it would be good if you don't get your hopes up too high

*→ to keep it simply: we're normal human beings. it's a matter of time **WHEN** we'll do the comps and how much time we'll need to finish them!*

everything here will be edited frequently as I said before! (means we'll often add anime or delete them from here) so take a look at this list from time to time
