

## Directions to VCIH

**\*\*For enrolled student use only. Clinical appointments are currently offered online only.\*\***

VCIH is located on the former campus of Goddard College in Plainfield, Vermont, on Route 214. Google Maps does a good job of getting you to the campus.

After turning into the main entrance, pass the "Upper Parking Lot" on your right and drive ahead about 100 yards until you reach the "Lower Lot", also on your right. Drive to the end of the lot to park. At the back of the lot, you'll see a path that gently slopes up towards a blue building and the greenhouse. The blue building is VCIH's home, also referred to as King.

The walk from the lot is short, but if you need to drop things off right at the building or the walk prevents you from comfortably accessing the building, you can drive to King on Dormitory Road, which is the first right after the Upper Lot. There are a few parking spaces at the building that can be used for anyone unable to walk up from the Lower Lot.

See Goddard's [campus map](#) for visual orientation, as needed. We are #26 / King dorm on the map.
