4. After you click “create account,” select “Link to a Judge.” One of two things will happen:

Possibility 1: If your name pops up as associated with a school (in the below example, Albuquerque Academy) this means the coach has already added you manually to the school's judge roster.

Action: If this happens, Click “REQUEST LINK.” This will connect the account you just made to the judge profile I just added. I will get an email notification to “approve” your link, and you will be listed as “pending” until I confirm you.

Possibility 2: If no judges pop up after you click that button, this means the coach has not yet added you to our roster.

Action: In this case, send your school's coach and indicate the email address you used to create your account. The coach will then add you manually to their roster.

JUDGES NAMED CRAIG NAKAKURA

Link a judge record to your accounts for email/text pairings & ballot assignments. Note: the administrators of your team or school will have to approve requests to claim a judge record before you can access them. Team admins will be notified of requests by email.

Please only link to your OWN judge record

Name	School/Team	Tournament(s)	
Craig Nakakura	Albuquerque Academy	1 tournaments	Request made, awaiting coach approval.

Do **NOT** link your accounts to your school's other judges, etc. That will prevent them from accessing online ballots, getting texts, or being contacted by tournaments.

If you want to get text/updates for one of your team's judges, you should instead sign up on the tournament's online updates page.

JUDGES NAMED MICAH EVERSON

There are no judges named Micah Everson who are not connected to an account already. If this is in error, as your team administrator or the tournament director to link your email to your judge record. Or, search for a different name.

Name search

If your name on the judge record isn't spelled exactly as it is on your account, the system may not have found you. Computers can't read nicknames, etc. If so, search alternate spellings of your name below to link.
