Students are to enter the Commons Area or front entrance upon arriving at school. All students are to leave the school building or remain in the Commons Area after school is dismissed unless remaining for special work or conference with a teacher. **We have a closed noon hour, and by this we mean students will not be allowed to leave the school over the lunchtime.**

### Credit

Academic credit will be granted based on the semester concept. A course that meets for 53 minutes per day for 18 weeks will grant 1/2 unit of credit. All credit will be granted by semester. Academic credit cannot be earned by a student who is not enrolled in classes for at least two-thirds of the current semester. Transferring from another school district will satisfy this requirement.

### Honor Rolls

To be eligible for the honor roll a student must be enrolled in a minimum of seven (7) units of credit, with a minimum of six (6) classes graded on the A to F scale and have a grade point average between 3.0 and 3.4999 on a four (4) point scale.

To be eligible for the principal's honor roll a student must be enrolled in a minimum of seven (7) units of credit, with a minimum of six (6) classes graded on the A to F scale and have a minimum grade point average of 3.5 on a four (4) point scale.

### Academic Letters

Academic letters will be awarded to honor roll students by the semester. Students will receive a letter for the first occasion and a bar for each semester on the honor roll and a star for each semester on the principal's honor roll.

### Grading

The following scale is to be used as a guide for the assignment of student grades:

A	95 – 100%	A – Outstanding
A-	90 – 94%	
B+	87 – 89%	
B	83 – 86%	B – Above Average
B-	80 – 82%	
C+	77 – 79%	
C	73 – 76%	C – Satisfactory Progress
C-	70 – 72%	
D+	67 – 69%	
D	63 – 66%	D – Below Average - Unsatisfactory
D-	60 – 62%	
F	Below 60%	F – Failing

The following classes will be graded pass/fail: Learning Strategies, Library Aide, Office Aide, Teacher Aide, and Supervised Work Experience.

A semester grade will be issued at the end of the first semester and second semester. The semester grade is based on the total number of points possible for the

semester. The semester grade is the grade recorded on a student's permanent record.

Grade points will be assigned in the High School according to the following scale.

A . . . 4.000	B ..... 3.000	C .... 2.000	D . . . 1.000
A- . . . 3.667	B- ..... 2.667	C- ... 1.667	D- . . . 0.500
B+ . . 3.333	C+..... 2.333	D+ .. 1.333	F . . . 0.000

### **Graduation Requirements**

In order to receive a diploma from Boonville R-I High School, a student must complete a planned program of eight semesters during grades nine through twelve. The planned program includes the following specific credit requirements:

Communication Arts	4 units
Social Studies	3 units
Mathematics	3 units
Science	3 units
Fine Arts	1 unit
Practical Arts	½ unit
Physical Education	1 unit
Health	½ unit
Personal Finance	½ unit
Electives	7 ½ units
Total Minimum Requirements	24 units

Not more than three (3) units earned through extension or correspondence will be considered for graduation. Students should take care in planning their curriculum each year. A student must be enrolled in seven (7) units of credit each year. Some years a student may take more than seven (7) units.

Students who transfer to Boonville High School from another high school may only transfer a maximum of 7 credits per academic year (3.5 credits per semester). Extra classes will be listed on the student's transcript, no credit will be given, but grades earned will be figured into the GPA.

Students, parents, or guardian and school counselor or principal, to meet the needs of the student with regard to his/her career plans, shall cooperatively plan the program of studies. A written four-year plan shall be prepared at the ninth grade level and reviewed annually for possible revision.

### **Grade Level Requirements**

To be eligible for status as a senior, a student must have completed a minimum of six semesters of high school attendance and have earned a minimum of 16 units of credit. Students not meeting this minimum qualification shall not be classified as a senior and thus not eligible to attend senior class meetings, order senior graduation supplies, or participate in any activity open to seniors. To be eligible for status as a junior, a student must have completed a minimum of four semesters of high school attendance and have earned a minimum of 12 units of credit. To be eligible for status as a sophomore, a student must have completed a minimum of two semesters of high school attendance and have earned a minimum of 5 units of credit.

### **No High School Credit Earned Prior to 9<sup>th</sup> Grade**

The 3 units of required high school math can only be earned beginning the 9<sup>th</sup> grade year. All students who earned credit for Algebra I prior to the 9<sup>th</sup> grade must continue to be enrolled in a math class through their junior year. Students may not earn high school credit prior to their 9<sup>th</sup> grade year.

## **Audit Credit**

Students can not earn credit twice for the same class. For example, if a student fails second semester of a required math class, a student can enroll in and retake the yearlong math class the following year, but will only receive one semester of math credit. The student would receive elective credit for the first semester.

## **End Of Course Assessments**

Beginning with the 2009-10 school year, the Missouri Department of Elementary and Secondary Education (DESE) has implemented End of Course (EOC) assessments, which replaced MAP testing at the high school level. Students enrolled in Communication Arts II, Algebra I, Biology I, and American History courses will take the state mandated exam for these courses, as well as any other courses DESE is offering the EOC for. The exam score will count as ten percent of the semester grade for the course.

For additional information on state assessments refer to board policy IL.

## **Credit Recovery**

Students who fail a course with a 50-59% may try to earn credit for the course through Credit Recovery. A student who fails the course below a 50% must retake the course. A student may earn no more than half of the credits for each of the core academic class graduation requirements through Credit Recovery.

## **Part Time Attendance - High School**

Students who need to attend high school beyond the fourth year to meet graduation requirements from Boonville R-I High School are eligible for part time attendance. In this situation students may enroll in less than seven units of credit. Other situations will be reviewed on a case-by-case basis.

## **Early Graduation**

The Missouri State Board of Education and the Boonville R-I Board of Education recommend that all students complete the eight semesters of high school attendance. Requests for a waiver of the eight-semester attendance requirement are subject to the following conditions:

1. The student shall meet all requirements for graduation from Boonville R-I High School except the eight-semester requirement.
2. The student and his parents in lieu of the eighth semester of high school attendance shall propose a program of continued education. The educational program may consist of only:
  - a. Full-time attendance during 2<sup>nd</sup> semester in an accredited junior or senior college or university.
  - b. Full-time attendance during 2<sup>nd</sup> semester in an approved technical training program.
  - c. Immediate reporting to a branch of the military.
3. Written application for approval of early graduation shall be made to the High School Principal **on or before November 1**. This application shall include a statement describing the student's educational or career plan and a statement of parental approval.

The Superintendent of Schools and the Boonville R-I Board of Education will review the student's application. Items to be considered with the application will include but not be limited to: grade point average, previous attendance record, educational program completed by the student, and educational program proposed. The decision of the Boonville R-I Board of Education shall be final.

Students accepted for early graduation shall be included with the regular list of graduates and may participate in commencement exercises but shall not be eligible for local awards, local scholarships, honors designation, etc.

Students graduating early shall not be eligible to participate in school activities, including co-curricular activities, extra-curricular activities, Prom, and Senior Banquet.

Students approved for early graduation shall present documented evidence of full-time enrollment and participation in the proposed educational experience prior to the close of the regular academic year. Such evidence shall consist of certification by the dean or other academic official. In order for the student to participate in commencement exercises, documentation must be received by the principal prior to this event.

### **Course Changes**

Students are advised to select carefully those courses that will prepare them for their career plans. Teachers are always ready to give assistance. There should be few requests for course changes or substitutions after the semester begins.

Occasionally a teacher or counselor to provide for a more appropriate placement of a student may initiate a course change. In such cases, changes are made in the Guidance Office. All changes should be made by the second week of school. To encourage students to be more selective in their course enrollments, there will be no student-initiated class changes after the third day of school unless an extreme situation arises.

### **Withdrawal from Classes**

Students are not allowed to drop class work without the permission of their parents, the instructor of the course, the counselor, and the principal. Students who wish to withdraw from a subject should obtain written permission from their parents and the instructor of the subject. This permit must be presented to the counselor for approval and change of records. Students who withdraw before the end of the semester for classes offering 1/2 unit of credit and/or before the end of the year for courses offering one unit of credit shall receive a grade of F for the course being dropped.

### **Transferring to Another School**

A student should notify the office a few days in advance of transferring to another school. A transfer form will be completed for the student to take to the new school. When all books and materials are turned into the office and the media center, the transfer will be authorized.

### **National Honor Society Selection Process**

The National Honor Society chapter of Boonville R-I High School is a duly chartered and affiliated chapter of this prestigious national organization. Membership is open to those students who meet the required standards in four areas of evaluation: *scholarship, leadership, service, and character*. Standards for selection are established by the national office of NHS and have been revised to meet our local chapter needs. Students are selected to be members by a five-member Faculty Council, appointed by the principal, which bestows this honor upon qualified students on behalf of our school. Students in the eleventh or twelfth grades are eligible for membership. For the scholarship criterion, a student must have a cumulative grade point average of 3.25 or better on a 4.0 scale.

Those students who meet this criterion are invited to complete a Student Activity Information Form that provides the Faculty Council with information regarding the candidate's leadership and service. A history of leadership experiences and participation in school or community service is required.

To evaluate a candidate's character, the Faculty Council uses two forms of input: first, school disciplinary records are reviewed; second, members of the faculty are solicited for input regarding their professional reflections on a candidate's character and leadership by completing an evaluation form. These forms and the Student Activity Information Forms are carefully reviewed by the Faculty Council to determine membership. An average score of 3.25 or higher is necessary for selection.

Candidates are notified regarding selection or non-selection according to a predetermined schedule.

Following notification, a formal induction ceremony is held at the school to recognize all newly selected members. Once inducted, new members are required to maintain the same level of performance in all four criteria (or better) that led to their selection. This obligation includes regular attendance at meetings held monthly during the school year, attendance at committee meetings and participation in the chapter service projects. Students or parents who have questions regarding the selection process or membership obligations may contact the chapter adviser or the high school principal.

### **Academic Dishonesty**

The integrity of the academic program and the evaluation of each student's achievement are of primary concern to all educational instruction. Cheating on any educational exercise not only reflects dishonesty on the part of the cheater but also diminishes the value of the work done by his or her classmates. Any student who cheats, plagiarizes, uses generative artificial intelligence without permission (AI), or large language models (chatbots) is subject to the following, plus Wednesday Detention, 1-10 days of ISS, or 1-10 days of OSS:

#### **First Offense:**

1. A zero will be recorded for the exercise.
2. The parents will be contacted.
3. The student will be referred to the principal.

#### **Second Offense:**

1. A zero will be recorded for the exercise.
2. The student will be referred to the principal.
3. The student will receive a 10% grade reduction on their final grade.
4. A parental conference will be required.

#### **Third Offense:**

1. A zero will be recorded for the exercise.
2. The student will be referred to the principal.
3. The student will fail the course for the semester.
4. A parental conference will be required.

### **Academic Eligibility Standards**

To be eligible for "extracurricular" activities sponsored by the Missouri State High School Activities Association and/or the Boonville R-I School District, students in grades nine through twelve must meet the following standards: Students are required to earn three units of credit the semester prior to their participation in an extracurricular activity. Students may earn up to 1 unit of credit during summer school to establish eligibility as long as the courses taken apply to our graduation requirements. No elective credit is allowed to establish eligibility as governed by the MSHSAA By-Law 213. Transfer students will be eligible the first semester of their transfer to Boonville R-I High School if they meet the MSHSAA standards and the eligibility standards of the school of transfer. Any student who is assigned In-School Suspension shall be deemed ineligible for that day and therefore would not be allowed to participate in an activity.

### **Graduation Honors**

Boonville R-1 School District graduation honors will include the awarding of Summa Cum Laude (GPA 3.9000-4.0000), Magna Cum Laude (GPA 3.7500-3.8999) and Cum Laude (3.5000-3.7499). Awarding of these honors will be determined by the GPA based on 8 semesters of course work. The cum laude system was adopted to encourage students to pursue a rigorous academic program. This program exceeds the minimum standards outlined for graduation. Classes must be from the academic

core. Embedded credit will not count toward graduation honors. Class rank is not used by Boonville High School. Class rank will not be given to students, used for college purposes, and will not be used to recognize students at graduation.

### **Requirements for Participation in Commencement Exercises**

Commencement is the marking of the beginning of life after high school and the ceremony to commemorate the successful completion of the elementary and secondary experiences. Commencement exercises should be conducted with dignity and should be taken seriously by all those involved. To help insure that graduation for Boonville R-I High School is treated with respect, the following guidelines are presented:

1. Only students who have met the requirements for graduation as established by the Boonville R-I Board of Education will be permitted to participate in commencement exercises. Students who will not meet the graduation requirements will be notified that they are not eligible for graduation activities.
2. Attendance at the commencement rehearsal is mandatory. The rehearsal will be conducted during the school day on the Friday before commencement. The entire ceremony will be rehearsed until it is done correctly. Upon completion of the rehearsal, seniors will be excused. If a student is out of school suspended the week prior to or leading into the end of school, the student will not be allowed to participate in the graduation ceremony and will be notified at the time of suspension.
3. Only school issued, administrative approved cords will be allowed
4. Boys should wear slacks, dress shoes, socks, and shirts with a collar. Girls should wear dress shoes, dresses or skirts and blouses. Students are not to wear sunglasses, shorts, tennis shoes, or flowers. Nothing should be attached to the gown. The tassel should be the only thing attached to the cap. No writing is to appear on the cap. Likewise students are not to alter their personal appearance in such a way as to detract from the commencement exercises.
5. As students cross the stage they will receive their diploma cover. Diplomas will be handed out following graduation at designated locations.

Graduation is the highlight of twelve years of school and should be a joyful occasion for all. By implementing these guidelines, it is our hope that the commencement program can be improved, thus providing a memorable experience for both students and parents.

## **GENERAL POLICIES**

### **ParentSquare Communication Platform**

Our school uses ParentSquare as our primary tool for school-to-home communication. ParentSquare allows us to send important updates, announcements, and alerts via email, text, app notifications, and voice messages—all in one place. Parents can also communicate directly with teachers and staff, receive school forms and permission slips, sign up for events, and stay informed about school activities. We encourage all families to download the free ParentSquare app and set up their accounts to ensure they receive timely and accurate information. ParentSquare also supports automatic translation into over 100 languages, helping us stay connected with every family in our school community. If you have any questions, email [news@bpsk12.net](mailto:news@bpsk12.net).

### **Electronic Communication**

Staff members are encouraged to communicate with students and parents/guardians for educational purposes using a variety of effective methods, including electronic communication. As with other forms of communication, staff members must maintain professional boundaries with students while using electronic communication regardless of whether the communication methods are provided by the district or the staff member uses his or her own personal electronic communication devices, accounts, webpages, or other forms of electronic communication.

The district's policies, regulations, procedures, and expectations regarding in-person communications at school and during the school day also apply to electronic communications for educational purposes, regardless of when those communications occur. Staff communications must be professional, and student communications must be appropriate. Staff members may only communicate with students electronically for educational purposes between the hours of 6:00 a.m. and 10:00 p.m. Staff members may use electronic communication with students only as frequently as necessary to accomplish the educational purpose.

### **Incidental Expenses**

Other incidental expenses are determined by the subjects in which students may be enrolled. All students enrolled in Art, Industrial Arts, or FACS will pay a materials fee for each course they are enrolled that will cover all materials used in individual projects if they wish to take possession of those projects. If the fee is not paid, all completed projects remains the property of the school and students will not be allowed to take possession of the projects.

Lost textbooks or locks must be paid for at replacement cost by the student to whom they were originally issued.

### **Makeup Work**

In general students are expected to take tests and submit homework upon returning to school from an absence, if the test and/or homework were assigned prior to the absence. Upon returning to school from an absence, students are not expected to take tests and submit homework that was assigned during an absence. In this situation students will be allowed one day to make up work for each day of absence. For example, if a student is absent two days, they will be allowed two days to make up the work that was missed. Students who are suspended may make-up work if requested by the student during the suspension. Any work requested after the suspension will not be given credit.

### **School Sponsored Trips**

All school-sponsored trips must be cleared through the office. A Trip Request form must be filled out by students and signed by parents or guardian before they may go. Students on school-sponsored trips must go and return in the transportation designated by the school. Parents must request permission from the principal or sponsor to transport their children upon returning from an activity where they traveled to the event in a school sponsored bus or vehicle. This must be done in person and in writing.

### **Use of Building**

The building shall not be used for any unscheduled activities by students, faculty, or groups after the building has been closed by the custodians in the evening.

Sponsors of activities must notify the office of scheduled meetings. Sponsors must be present when an organization is having a meeting and/or activity.

### **Inclement Weather Dismissal**

When it becomes necessary to dismiss school because of inclement weather, notice will be given via ParentSquare, over the Boonville Radio Station, KWRT, 1370 AM, and local television stations.

### **Late Start Procedures**

The Boonville R-1 School District has adopted Late Start days when needed due to inclement weather. On days when an announcement on radio, TV, email and ParentSquare has been made that a Late Start is in session, all schools will begin 2 hours later than their regular school start time. Boonville High School will begin at 9:50 and follow the Late Start schedule. The building will be open for students beginning at 9:25 for those students who wish to be here for those two hours.

### **Disaster Drills**

School safety is important. Fire, tornado, earthquake, and intruder drills are conducted throughout the school year. The Boonville R-1 School District has made many preparations to deal effectively with emergency situations that could occur in or around the school while classes are in session. While we hope that a natural disaster or other serious incident never occurs, our goal is to be prepared for any potential emergency. At all times, our first priority is to protect all students and staff from harm. Our district will be using the "I Love U Guys" Foundation's programs for crisis response and post-crisis reunification.

### **Visitors to The Building**

All visitors will report to the office to state their reason for their presence in the building and/or parking lot. Failure to comply with this request may result in trespassing charges. Visitors will not be allowed to attend classes but may visit during lunch as long as parents have requested the privilege in advance and have the principal's approval.

### **Guidance and Counseling Services**

All students have available the services of our guidance counseling department. Each student may see the counselor as many times during the year as is necessary. Students can plan their educational program and better determine their own interests, aptitudes and capabilities. Group and individual counseling is used each year to help students plan a program of study. Steps followed in determining this program of study include: career exploration, test interpretation, selecting tentative career goals, and planning an appropriate high school course of study for that goal.

A student may request a visit with the counselor personally. Teachers or parents may also make the initial request for a student's appointment with the counselor. Assistance is available on any problem a child may have that affects his/her school or personal life. Special services include both group and individual testing. Parents are especially invited to make use of our guidance services to better understand the child's academic program.

### **High Demand Occupations**

Prior to November 1 of each year, each high school in the district will provide its students with information concerning occupations that have a critical need or shortage of trained personnel as provided by the State Board of Education.(167.902, RSMo.)

<https://dese.mo.gov/media/pdf/high-demand-occupations>

### **Health Services**

Boonville R-I High School has a school nurse. Students should report to the nurse's office when a health problem arises during a school day. If the nurse is not in, the student should report to the office. In case of an emergency, parents will be notified as soon as possible.

For information on MO Healthnet for Kids Program please refer to Procedure KB-AP1 or go to <http://www.benefits.gov/benefits/benefit-details/1606>.

**A parent request form will need to be filled out for any prescription medication. Over-the-counter medications (ibuprofen, acetaminophen, cough drops, antacid) will only be dispensed with parents signed permission. If an OTC has to be administered on a daily basis for over seven days, a physician request form will need to be filled out. All forms may be obtained in the health office. \*Medication needs to be brought into the nurse's office. It should not be sent in a child's backpack.**

### **Immunization Policy**

According to state law, a student must be immunized against measles, diphtheria, rubella, polio, meningitis, and hepatitis. Students who do not furnish up-to-date certificates of immunization will be excluded from school.

### **Media Center**

The media center is open each day from 7:25 a.m. to 3:10 p.m. Students are urged to make use of the media center and its many books and resource materials. Special services provided in the media center include the following: orientation to the media center, research assistance, computer lab, and computer instruction, reading guidance, etc.

A student may ask permission from his/her teacher to visit the media center, when necessary, during any specific class period. This will be permitted, of course; only when the material needed pertains to the class the student is in at that time.

1. All books are loaned for a two-week period. With permission of the library, a book may be renewed for an additional period.
2. When coming into the media center from a class, show your pass to the media center specialist.
3. Many magazines or reference materials other than books are available in the media center for the student's use. Return these articles to the proper place when finished using them.
4. Reference materials may be checked out overnight or over the weekend. Any of these materials checked out must be returned to the media center before 7:50 a.m. on the following day. Any student failing to return these references will be sent home for the same.
5. Anyone abusing the freedom and privileges of the library may have his/her library privileges revoked for an indefinite time.

### **Lockers**

At the beginning of each school year, a student will be assigned a locker. These lockers are for the purpose of providing storage space for wraps and school supplies. It is not intended that they be a storage space for valuables. **Keep your locker locked at all times that it is not in immediate use.** Students are to use only those locks provided by the school. If you have a defective lock or locker, report it to the office at once. Damage to a locker will be charged to those students assigned to that locker during each semester, and the privilege of using a locker may be withdrawn. Students will be assigned to a Wednesday detention for storing open food and

beverage containers in their lockers. Students will be assigned to a Saturday Detention for changing lockers without permission from the principal's office.

Lockers will be inspected and cleaned out at least two times during the school year. During locker cleanouts students are to report to their lockers and remove unnecessary materials. Students are not to leave until their lockers are inspected by a staff member.

Students may personalize the inside of their locker to the extent that they do not destroy their locker or permanently alter their locker. No items may be placed on the outside of the locker and items or pictures which are indecent or otherwise offensive may not be displayed in a locker.

### **Lost and Found Articles**

The lost and found department is located in the principal's office. Report to the office secretary those articles that may have been lost. Please report lost or found articles to the office as soon as possible.

### **Cafeteria Service**

**For parents who wish to bring food to their student during school hours please refer to policy ADF, Procedure ADF-AP1.**

Beginning the first day of school, breakfast and lunches will be served in the cafeteria and it is free for all students. Parents are allowed to pre-pay for ala carte items on their student's accounts.

### **NO OUTSIDE FOOD IS TO BE DELIVERED OR DROPPED OFF DURING LUNCH FOR ANY REASON.**

Parents can make online lunch payments through Parent Portal and PayPal. Parents must have a Parent Portal account but do not need to set up a PayPal account in order to use this function. A small fee is charged against the deposit amount by PayPal on a per transaction basis. The parent pays the fee.

### **Food and Drink**

Bottles of water with a sealable lid may be consumed in the halls and during class if the student has permission from their teacher. All other food and drink must be consumed in the commons unless it is needed for educational purposes. Open food and open drinks shall not leave the commons or be in the hallways, restrooms, locker rooms, or classrooms. If a student brings food with them to school in the morning, it must be taken to the commons and consumed there. If a student brings lunch to school, they may store it in their locker, but all items must be closed. Open bags of chips, open drinks, cups, etc., are not to be stored in the locker. A drink with a sealable lid can be stored in the locker after it is opened, but it is not to be consumed outside of the commons by students unless it is water.

### **Conduct in The Commons**

Students are expected to conduct themselves in a mature manner during the period of time they are waiting in the commons before or after school and at noon while eating lunch. Students are to talk in a reasonable manner and refrain from loud talking, yelling, running, horseplay, etc. Students who are involved in **throwing** food are subject to after school detention, in school detention, or suspension from school. In addition, students may be assigned to a specific location to eat lunch in the commons or denied the privilege of eating lunch in the commons.

### **Closed Noon Hour**

A hot lunch program is available for students and faculty during the noon hour. Therefore, no student may leave school to eat lunch. The student body will eat lunch in three shifts with the first shift scheduled from 11:38 - 12:08, the second shift from 12:08 – 12:36 and the third from 12:36 - 1:06. All students are to report to the cafeteria during their scheduled lunch period. After eating lunch students are asked to return their trays to the kitchen and place all trash in waste cans. Students are asked to return to their seats or may wait outside on the south side of the Commons until their lunch shift is dismissed for classes. Students are not to be at any other place during their lunch shift without permission from a teacher or from the office.

### **Telephone Calls**

Students may use the office phones on a limited basis. Parents are asked to call students using the office phone and not the student's cell phone. Messages for the student will be delivered to students at the end of each hour. Students will not be called from class except in an emergency. The office secretaries will take numbers, and return calls may be made between classes or after school hours.

### **Bulletin and Intercom System**

Each day during the school year a daily bulletin will be emailed to all students' school email accounts. Its purpose is to serve the student body by giving up-to-date information about such things as school policies, assemblies, test schedules, organization meeting times and places, dates of games, scholarship announcements, special events, and many other items of general interest. Students are held responsible for the information contained in them. The officers of any class or organization may have necessary information printed in the bulletin by writing it out on special request forms, having the sponsor sign it, and giving it to the secretary in the office by 3:00 p.m. the day before the bulletin is to be read. Please anticipate needs in advance. Information intended for broadcast on the intercommunication system should be placed on special request forms with proper authorization signatures.

### **Yearbook**

The *Buccaneer* is the school's yearbook that is published annually and distributed to students during the first month of the school year. The yearbook class has the responsibility of this production. The publication gives a complete pictorial record of activities during the school year.

## **ATTENDANCE**

School attendance is becoming more and more important as a part of each student's high school record. Regular and punctual attendance by all students is also necessary for the proper functioning of the entire school. One of the major causes of failure in secondary schools today is absenteeism.

### **Absence/Truancy: Definitions**

Boonville High School will not make any distinction between excused and unexcused absences, except in the case of truancy. A student is considered absent when he/she misses all or any major portion of one or more class periods. Students who are absent will have the right to make up missed work. All absences will be recorded by class hours. Truancy is defined as:

1. Not attending school after leaving home to do so.
2. Leaving school without permission from the office and parents.
3. Not attending a class the student is enrolled in or assigned to, without a legitimate pass to do so (this would include a student wandering the hall rather than returning to class).
4. Leaving class without permission.
5. Being absent without parent's permission.

Truancy absences will not allow the student to earn credit for makeup work.

### **Parent's Responsibility In Cases Of Absence**

When a student is absent from school with the parent's permission it will be necessary for the parent to call the school office in order for the absence not to be considered truancy. Calls will be accepted at any time the office is open. This is generally between 7:15 am and 3:00 pm. Parents are urged to call before 10:00 am. Parents are expected to call or email on the day of the absence or on the first day of an absence that will last more than one day. Parents not calling in by 3:00 pm on the day of the absence will be notified by a telephone call that day if possible. If parents are unable to call, students should bring a note from their parents to the principal's office on the day they return to school. Upon returning to school students who have not provided evidence that they had permission from their parents to be absent from school will be classified as truant. Students who falsify notes will be assigned to ISS.

### **Absence Limit**

Students will be expected to make up all assignments from missed classes regardless of whether an absence is excused or unexcused. Students will not be allowed more than nine absences in any class per semester. If more than nine absences occur, the highest grade the student could earn would be a 60% or D-. The student's parents will be notified of any change of a grade to a D-. There will be opportunities for students to make up missed time during the school year.

The only exceptions by the administration will be for:

1. Illness in which a student is under a doctor's care and for which a doctor's note is presented. Exceptions for scheduled medical appointments will be made only for the period of time required to travel and keep the appointment. Complications arising from a medical appointment are to be documented with a note from the physician.
2. Extreme emergency situations.

Absences that do not count toward the nine-day limit include school activities and in-school detention as well as suspension from school. Students who have more than 10 absences in a period during a semester and are not eligible for homebound instruction may have their course load reduced. The principal shall determine the reduction in course load based on the practicality of a student completing a course successfully.

### **Appeal Procedure For D-**

When a student and parents are notified of a change to a D- due to absences, they will have five school days after receipt of notice to appeal in writing this decision to the high school principal. The appeal will be considered by the high school administration. After considering the appeal, if the high school administration determines the student will receive a D-, the student and parents may appeal the decision to the superintendent of schools.

### **Notification To Parents**

Upon reaching the following limits in a semester, the parents will be notified:

**6th absence** - Parents will receive a letter and a conference will be arranged if the parent desires it. Proper record of the parental notification will be kept.

**8th absence** - Parents will receive a letter and a conference will be arranged if the parent desires it. Parental notification will be kept.

**10th absence** - Grade of D-, Parents notified by letter and advised of their right of appeal.

**Students must maintain an attendance rate of 90 percent to be eligible for any nomination. Students must maintain a 90**

## **percent attendance rate to be eligible to attend homecoming, courtwarming, prom, or any other school dance.**

The district will contact the Children's Division (CD) of the Department of Social Services or the local prosecutor in cases where the district has a reasonable suspicion that a student's lack of attendance constitutes educational neglect on the part of the parents or that parents are in violation of the compulsory attendance law. No such action will be taken unless other strategies and interventions have been implemented and proven ineffective.

\*Administrator discretion will be used on circumstances deemed unusual or special.

### **Discipline Administered for Truancy**

The following consequences have been set for student found truant:

**First Truancy** - Notification to parents and student by phone or mail.

One to two days of Saturday Detention. Zero credit recorded for all class work missed during the truancy. Possible parent conference.

**Second Truancy** - Notification to parents and student assigned three to five days of ISS. Zero credit recorded for all class work missed during the truancy.

**Third and Subsequent Truancies** - Notification to parents and student assigned six to ten days of ISS. Zero credit for all class work missed during truancy.

### **Tardiness**

Punctual and regular attendance is necessary in a well-ordered school, both for the proper training of the individual student and to avoid disruption of classroom activities. The pupil who is tardy wastes not only his own time but also the time of the other class members who are distracted upon the entry of the late pupil. To discourage the practice of being tardy, tardies are generally considered to be unexcused unless the student has a note from a teacher or the office.

Class begins when the tardy bell sounds. Teachers will close their door when the bell rings. **Tardies are based on total tardies accumulated for all classes.**

### **Discipline Administered for Excessive Tardiness**

1. During the semester, students will be assigned the following consequences on the eighth tardy and all succeeding tardies to class.
  - 8th Tardy – Wednesday Detention
  - 9th Tardy – Saturday Detention
  - 10th Tardy – 1 day of ISS
  - 11th Tardy – 1 day of ISS
  - 12th Tardy – 2 days of ISS
  - 13th Tardy – 2 days of ISS
  - 14th Tardy – 3 days of ISS
  - 15th Tardy – 3 days of ISS
2. Students who miss more than half a class shall be counted as being absent from that class period.

### **Checking Out of School During The School Day**

1. After a student has reported to school, he/she is not to leave at any time except after reporting to the office and receiving permission. Students must sign out on the sign-out sheet in the office with the principal or secretary signing the student out of school.
2. Permission will not be granted unless the student presents a written request from the parent that he or she be allowed to leave school or the parent is contacted by phone.

3. Failure to follow the proper procedure when leaving the building will result in a student being considered truant.
4. Daily and special bulletins will carry announcements of students who are excused to take part in special activities. In such cases, students are not required to check out and are not to be marked absent by their teachers.
5. Leaving school for a legitimately scheduled reason such as work release, BTEC classes, etc., does not require a pass from the office. All other situations do.
6. If a student becomes ill during the school day, he/she may not leave the building without checking out through the office.

### **Homebound Instruction**

Homebound instruction will be made available to students who will be absent from school for at least ten successive days and are under the care of a doctor. Students and/or parents of the student involved are to make an application for homebound instruction through the principal's office. The student's doctor is required to complete a portion of the application verifying the need for homebound instruction. The duration of homebound instruction is determined by the information furnished by the doctor.

Parents and students must realize that while every attempt will be made to continue the student's education, there is no guarantee that all courses can be homebound. The nature of homebound instruction will be determined by the length of absence from school and the practicality of a student completing a course in its entirety. The principal shall determine what courses will be homebound after conferring with the student's teachers. Once on homebound instruction, revisions in the scope of instruction may be made as deemed necessary by the principal. Credit for homebound instruction cannot be earned if the student fails to finish the semester and/or is not actively working toward the completion of the course(s) for which the student is receiving homebound instruction.

During homebound instruction students are not permitted to attend school or any school function without written consent from the student's doctor.

### **Career Days**

Junior and senior students may be excused from school to visit a college, junior college, vocational-technical school, or investigate the military. Students may take one day during the second semester of their junior year, while students may use two days for such purposes their senior year. To be eligible to participate as a junior, students must have completed a minimum of 5 semesters of high school attendance earning a minimum of 14 units of credit. Seniors must have completed a minimum of six semesters of high school attendance earning a minimum of 17 units of credit. Seniors must also have taken the ACT, SAT, or COMPASS tests to be eligible to visit a college or junior college. Career day requests made by students who have missed more than ten days of school are subject to approval of the principal.

The Career Day visits should be meaningful and provide students with an opportunity to plan their future. During a Career Day students are required to spend a minimum of three hours on campus or engaged in a specific activity related to the military. Visits to a college or vocational school campus should include contact with:

1. The admissions office
2. The financial office to investigate costs, guidelines, requirements, deadlines, scholarship requirements
3. The housing office
4. The department chairman or representative to review and explore program of study
5. Other representatives to audition for music scholarships or tryout for athletic scholarships, etc.

To be excused from school a student must request permission through the guidance office by 3:00 p.m. on the day prior to taking a Career Day. A representative of the school or military must also verify the student's visit by signing off on the copy of the request form.

Career Days will not be approved before September 15 or after April 15. Other days that shall not be approved include the last day of the first semester of classes at Boonville R-I High School, the day before and the day after a Boonville R-I High School vacation.

When students follow the guidelines for Career Days those days are classified as a school related field trip and do not count as days absent from school.

## **GENERAL REGULATIONS**

Students are not to have cards, dice, electronic games, or any other games at school. Students are not to bring laser pointers to school. Laser pointers will be confiscated and may be returned only to parents. Sunglasses, hats, headgear, coats, jackets, backpacks, cross-body bags, gym bags, and the like are to be placed in lockers during the school day. These items are not to be worn or taken to class and are subject to being confiscated. Students who repeatedly fail to comply with these guidelines will be subject to disciplinary action.

### **Classroom Misbehavior**

Students at Boonville High School are expected to take responsibility for their education, behavior, and actions. Students should act in a way which best represents their school, parents, and community.

Students should be supportive of fellow students and their activities and respect cultural diversity, individuality, and the choices and rights of others. Students should arrive to class on time and prepared, work hard, remain on task, refrain from infringing on the right to learn, and be respectful of the teacher's wishes.

A student who repeatedly violates classroom policies or misbehaves in class shall be subject to referral to the office. Misbehavior might include such things as disrespect for authority, disobedience, excessive talking, failure to work, sleeping in class, coming unprepared without books and materials, etc.

Before an administrator will consider disciplinary action for classroom misbehavior, the teacher must show that actions have been taken to resolve the student's problem prior to referral to the administration. Such actions include student-teacher conferences, referral to the counselors, and parent conferences.

Possible disciplinary action includes after school detention, in-school suspension, and suspension. Excessive misconducts will result in suspension.

All rules and regulations of the Boonville R-I School District apply to all students riding on a school bus. Behavior on school buses that violates school policy may result in a student being suspended from riding on the bus or having other disciplinary action taken.

Bus conduct reports are issued by the bus driver to students who are involved in inappropriate behavior. A copy of the report will be provided to the principal with a student conference to be held. Students must have their parents sign and return a copy of the report to return to the bus the next day following the incident. The Board of Education expects student dress and grooming to be neat, clean and in good taste so that each student may share in promoting a positive, healthy, and safe atmosphere within the school district.

Student dress and grooming will be the responsibility of the individual and parents/guardians, within the following guidelines:

- 1. Dress and grooming will be clean and in keeping with health, sanitary, and safety requirements.
- 2. All students must wear a shirt and pants/shorts (both made of opaque fabric), shoes, boots, or other types of footwear.
- 3. Clothing must not advertise or suggest inappropriate messages (Examples: Alcohol, Tobacco, Weapons, Profanity, or Sexual Innuendos)
- 4. Sunglasses, hats, headgear, backpacks, gym bags, and the like are to be placed in lockers during the school day. These items are not to be worn to class and are subject to being confiscated.
- 5. Students are prohibited from wearing or displaying non-clothing items to include, but not limited to: capes, flags and blankets.
- 6. Dress and grooming will not disrupt the educational environment.
- 7. Class activities that present a concern for student safety may require the student to adjust hair and/or clothing during the class period in the interest of maintaining safety standards.
- 8. Additional dress guidelines may be imposed upon students participating in certain extracurricular activities.

When, in the judgment of a school administrator, a student's appearance or mode of dress does not comply with the above criteria, the student may be required to make modifications. No employee or volunteer shall direct a student to remove an emblem, insignia, or garment, including a religious emblem, insignia, or garment, as long as it is worn in a manner that does not promote disruptive behavior.

The board of education recognizes the value of allowing individual student expression as well as the necessity of protecting student health and safety and maintaining an atmosphere conducive to education. Student dress code procedures must be designed with the goal of balancing these competing interests.

All dress code procedures will adhere to health and safety codes and comply with applicable law. Dress that materially disrupts the educational environment will be prohibited. No procedure will impose dress and grooming rules based on gender in violation of Title IX.

Administration reserves the right to require a student to make modifications to their clothing and/or to provide school appropriate clothing to a student when, in the judgment of the administration, a student's appearance or mode of dress does not comply with the above criteria.

Students in violation of the dress code will be provided three (3) options to be dressed more to code during the school day:

- Students will be asked to put on their own alternative clothing, if already available at school, to be dressed more to code for the remainder of the day
- Students will be provided with temporary school clothing to be dressed more to code for the remainder of the day
- If necessary, students' parents may be called during the school day to bring alternative clothing for the student to wear for the remainder of the day

### **STUDENT DRUG TESTING**

The Board recognizes the importance of protecting the health and safety of students from the use of illegal drugs, synthetic drugs, prescription drugs without a valid prescription, and alcohol. The purpose of this policy is to help prevent substance abuse among students, to encourage treatment for students with substance abuse problems and to ensure that students have the opportunity to attend school and participate in activities in a fair, safe and healthy environment.

The superintendent or designee is directed to adopt procedures to carry out the intent of this policy and may contact the district's attorney for assistance in applying this policy. The district will use a laboratory certified by the U.S. Department of Health and Human Services.

### **Random Drug Testing**

Participation in extracurricular activities is a privilege and carries with it the responsibility to adhere to high standards of conduct, including refraining from the use of illegal drugs, synthetic drugs, prescription drugs without a valid prescription, and alcohol. To assist students in making healthy and safe choices, the district will conduct random drug testing of students in grades 7-12 as a condition of participation in covered activities. Covered activities include all extra-curricular activities, co-curricular activities, and any student who chooses to drive to school and park in a district parking area. District employees shall not have the authority to waive the testing of any student selected using the random selection process.

Certain extra-curricular activities have an academic component during the school day, as well as an extra-curricular component outside of school hours. This policy applies only to the participation opportunities afforded students during the extra-curricular component of the activity. Therefore, if a student violates this policy, the consequences described below will apply only to the extra-curricular component of the activity. The student's grade will not be lowered because of the student's suspension from participation in extracurricular activities. The student may be expected to complete alternative assignments during the suspension in order to maintain his or her

grade.

### **Consequences**

Offenses shall be cumulative from grades 7-12.

A positive test through this random testing program will not result in suspension from school or academic sanctions. The district will not report results to law enforcement. Students who test positive through this random testing program will be excluded from participation in covered extracurricular activities as follows:

**First Offense** – Exclusion from all covered activities for a minimum of 30 calendar days. The student shall incur a mandatory retest, as described below.

A student under exclusion may attend and participate in practice sessions and sit with fellow participants during activities/contests; however, the student is not permitted to directly participate in any activities/contests, or to dress in uniform.

**Reduction of Exclusion** – This exclusion can be reduced to 15 calendar days if the parent/guardian obtains, at the parent/guardian's expense, a substance abuse evaluation by a recognized substance abuse program or professional, along with written documentation of enrollment and regular attendance in an educational/counseling program. A mandatory retest will be required.

**Mandatory Retest** - Any Participant who tests positive will be required to provide a negative drug test at the Participant's cost before regaining eligibility and will be subject to periodic follow-up tests at District cost for 365 days after return to activities. Failure to provide a negative drug test, within five school days, at the end of the initial suspension will be considered a Second Offense. All tests will be conducted by the District approved Testing Company.

**Second Offense** – Exclusion from all covered activities for a minimum of 180 calendar days and must pass a mandatory retest administered by the district prior to participating in covered activities again.

**Reduction of Exclusion** - This exclusion can be reduced to 90 calendar days if the parent/guardian obtains, at the parent/guardian's expense, a substance abuse evaluation by a recognized substance abuse program or professional, along with written documentation of enrollment and regular attendance in an educational/counseling program. A mandatory retest will be required.

**Mandatory Retest** - Any Participant who tests positive will be required to provide a negative drug test at the Participant's cost before regaining eligibility and will be subject to periodic follow-up tests at District cost for 365 days after return to activities. Failure to provide a negative drug test, within five school days, at the end of the initial suspension will be considered a Third Offense. All tests will be conducted by the District approved Testing Company.

**Third Offense** – Excluded from all covered activities for the rest of the student's enrollment in the district.

### **Suspicion-Based Drug Testing**

Suspicion-based drug testing, unlike random drug testing, may only be used when there is reasonable suspicion that the student is under the influence of or has recently consumed alcohol or any drug prohibited by district policy. Students testing positive will be disciplined in accordance with the district's discipline policy and may also be excluded from extracurricular activities as determined by the district. A student who refuses to submit to testing may still be disciplined under the district's discipline code

for being under the influence of alcohol or drugs.

### **General Rules and Regulations**

1. Students are expected to follow the directions and instructions of their teachers and school authorities. If a student feels that a teacher's demands are unjust, or unfair, the student may confer with the administration at an appropriate time without interrupting class or further compounding the problem.
2. Common courtesy and respect for the rights of others should be observed at all times.
3. Students may use school buildings and facilities only under the direct supervision of the school staff. A faculty member must be physically present and actively supervising all activities held in the school building.
4. "Horseplay" in the form of running, pushing, shouting, and hitting is immature and has no place at school.
5. When students report to class, they are expected to have the books and the supplies necessary to carry out class activities successfully.
6. Public display of affection has no place in school.

### **Physical Education Policies for Participation**

The Missouri State Board of Education requires students to complete one unit of credit in physical education to graduate from high school. Physical education courses may be modified to meet the needs of students with physical limitations.

Students enrolled in the required physical education course at Boonville High School must participate daily to earn a passing grade. Dressing out is only required for Advanced PE classes. Students may be excused from participating in physical education classes for one or two days by parents writing a note addressed to the physical education teacher explaining the need for the student not to participate in class. Parents wishing to excuse a student from participating for five or more days are to make the request to the teacher in writing with the date of the appointment for the student to see a doctor being provided in the note. Following the doctor's appointment a note from the doctor is to be provided to the physical education teacher. The note will document the need for nonparticipation in physical education as well as providing information for modifying the students participation in physical education. Students who have 3 non-dresses for the semester in Advanced Physical Education will receive a failing grade for the semester.

A student's physical education activities may be modified by a physician, physical therapist, or by the physical education instructor. In situations where a student is injured or suffering from an illness that limits participation in physical education a doctor will provide in writing detailed information as to the exercises and/or activities to be completed in a modified program. If a student's physical education activities are modified for more than twenty days of class, their physical education class will be transcribed as Modified Physical Education with the class being graded as pass or fail.

Students who are injured, sick, or otherwise cannot participate in physical education class for more than five days will be assigned alternate work to earn a grade. Students who cannot participate in physical education class on a regular or modified basis for more than ten days may be removed from class. Each situation will be reviewed by the principal and physical education instructor. Students who are removed from class will be scheduled for physical education at a time when the student may participate in physical activity.

### **Electronic Devices**

In accordance with Missouri Senate Bill 68, students are prohibited from accessing personal electronic communication devices during the school day, defined as the time

between the first and final bells. Communication devices must remain powered off and stored in backpacks.

E-Devices include devices used to communicate, receive, send, store, record or listen to voice, text, digital, audio, video, photo, electronic or internet/cyberspace data, images and/or information which shall include, but not be limited to, pagers, cellular phones, iPods, Personal Digital Assistants (PDAs), MP3 players, laptops, portable music players, CD players, game players, cameras, video cameras, GPS, tablets, e-readers, Smart Watches, wireless earbuds, chromebooks, etc.

The school is not responsible for lost or stolen E-Devices or any damage to the E-Device, its programs or its contents. E-Devices shall not be used to connect to district electronic equipment or district electronic networks at any time. E-Devices may be used before and after school. No camera or video-capable electronic device may be used in the locker rooms or restrooms at any time. Failure to follow these guidelines will result in the E-Device being confiscated and turned into the office. Students may pick up their items, after school is over, in the office. Consequences for each offense will be administered.

Parents can leave a message for students in the main office and/or students can access a phone in the main office to contact a parent.

### **Misuse of Technology**

Technology is a wonderful tool for learning as long as students use it responsibly. Use of the district's technology resources is a privilege, not a right. A user does not have a legal expectation of privacy in the user's electronic communications or other activities involving the district's technology resources, including e-mail and access to the Internet or network drives. Unauthorized sites on the Internet should never be accessed at school. Students who are logged on to unauthorized sites on the Internet are subject to:

- 1<sup>st</sup> offense: Four (4) week loss of Internet privileges.

## **DISCIPLINARY ACTION**

### **General Statement**

The Boonville R-I School District believes that schools have been established for the education of the individual and the improvement of society. The district also believes that one of the major functions of our schools is the preparation of youth for citizenship in our community and nation. Self-discipline and the acceptance of individual responsibility are important phases of this preparation. It is the objective and policy of the Boonville R-I School District to recognize, preserve and protect the individual rights of all students, and yet at the same time to encourage and enforce the exercise of these rights within the necessary framework of an orderly, efficient and continuing school program. Therefore, in order to clearly understand and set forth the guidelines of student behavior in the schools, the following rules and regulations have been adopted by the Boonville R-I Board of Education for use in grades 9-12.

### **Definitions**

**After school detention** - Students may be assigned to afternoon detention for such infractions as excessive class tardies, excessive class absences, habitual disregard for classroom and/or school rules. Students may be assigned detention time after school by any teacher or any administrator. Assignments by teachers are made with

approval of the principal. Detention is held every Wednesday from 3:05 to 3:50 p.m. The privilege of bus transportation shall be suspended for students on the day of serving after school detention. Students will be given at least one day to arrange transportation if necessary. Students who are assigned detention and fail to serve it will be assigned to in-school suspension.

**Saturday detention-** Saturday detention is held at Boonville R-I High School on designated Saturdays from 8:00 a.m. to 12:00 p.m., in the media center. Students assigned to Saturday detention will be given at least one week to make arrangements to attend detention. Students who are assigned to a Saturday detention and fail to serve it will be assigned to two days of in-school suspension. Students who are assigned to Saturday detention must enter into productive work and are not allowed to sleep. No cell phones, headphones or other devices will be allowed.

**In-School Suspension** - Students may be assigned to in-school suspension for such infractions as truancy, tardies, and habitual disregard for classroom and/or school rules. In-school suspension will be held from 7:50 to 3:00 p.m. at the BHS Alternative School. Students assigned to in-school suspension will be required to work on class assignments. Students will not be counted absent from class and will receive full credit for all class work completed and submitted to their teachers on time. Students who are tardy to ISS will receive a tardy applied to their first hour class at BHS. Students are not allowed at the high school during the school day while in ISS.

Students in ISS will have bus transportation available to and back home through their regular bus. Students must bring all necessary school items with them. Breakfast and lunch will be provided and brought over to ISS students. Students will use money in their lunch account to purchase a meal. Meal prices are the same as at Boonville High School. If a student misses any part of the day for any reason, the student will be required to make up the day in ISS. If a student is dismissed from ISS, he/she will be required to make up the time before returning to regular classes at Boonville High School. All time the student is assigned to ISS must be served. (Example: A student is assigned to 4 days of ISS. The student must serve 4 full days of ISS prior to returning to classes at Boonville High School.) Any student in ISS is ineligible to participate or attend any extra-curricular activity on that day. Once ISS has been served, the student will be able to participate or attend events on following days.

**Suspension** - A building principal may suspend a pupil for a period not to exceed ten (10) school days. Students may be suspended for actions deemed to be prejudicial to good order in the school or which violate the rights of others or the school. During a suspension from school students are not to be on school property or attend any school related activity. Students who are suspended may make-up work if requested by the student during the suspension. Any work requested after the suspension will not be given credit. A re-entry hearing will be required for any student suspended for weapons, alcohol, drugs, or any violation deemed necessary by the re-entry committee.

### **Missouri Safe School Act**

The Missouri Safe Schools Act became law in August 1996. The Boonville R-I Board of Education has adopted policies which implement this law. The intent of this law is to reduce violence in schools and make Missouri schools safer.

### **504 Public Notice**

The school districts listed below, as recipients of federal financial assistance from the United States Department of Education and who operates a public elementary or secondary education program and/or activity, are required to undertake to identify and locate every qualified person residing in the District who is not receiving a public education; and take appropriate steps to notify disabled persons and their parents or guardians of the District's duty.

The school districts listed below assure that they will provide a free appropriate public education (FAPE) to each qualified disabled person in the District's jurisdiction regardless of the nature or severity of the person's disability. For purposes of Section 504 of the Rehabilitation Act of 1973, the provision of an appropriate education is the provision of regular or special and related aids and services that (i) are designed to meet individual educational needs of disabled persons as adequately as the needs of nondisabled persons are met and (ii) are based on adherence to procedures that satisfy the requirements of the 504 federal regulations.

The School District below assures that they will provide a free, appropriate public education (FAPE) to all eligible children with disabilities between the ages of 3 and 21 under its jurisdiction.

Disabilities include autism, deaf/blindness, emotional disorders, hearing impairment and deafness, mental retardation/intellectual disability, multiple disabilities, orthopedic impairment, other health impairments, specific learning disabilities, speech or language impairment, traumatic brain injury, visual impairment/blindness and young child with a developmental delay.

Missouri school districts are responsible for meeting the educational needs of an increasingly diverse student population by providing a wide range of resources and support to ensure that all students have the opportunity to succeed and be college prepared and career ready. Our school district has programs designed to help meet the unique educational needs of children working to learn the English language, students who are advanced learners, students with disabilities, homeless students, the children of migratory workers, and neglected or delinquent students. For more information, contact Cynthia Dwyer at [Cynthia.dwyer@bpsk12.net](mailto:Cynthia.dwyer@bpsk12.net).

The School District assures that it will provide information and referral services necessary to assist the State in the implementation of early intervention services for infants and toddlers eligible for the Missouri First Steps program.

The School District assures that personally identifiable information collected, used, or maintained by the agency for the purposes of identification, evaluation, placement or provision of FAPE of children with disabilities may be inspected and/or reviewed by their parents/guardians. Parents/guardians may request amendment to the educational record if the parent/guardian believes the record is inaccurate, misleading, or violates the privacy or other rights of their child. Parents have the right to file complaints with the U.S. Department of Education or the Missouri Department of Elementary and Secondary Education concerning alleged failures by the district to meet the requirements of the Family Educational Rights and Privacy Act (FERPA).

The School District has developed a Local Compliance Plan for the implementation of State Regulations for the Individuals with Disabilities Education Act (IDEA). This plan contains the agency's policies and procedures regarding storage, disclosure to third parties, retention and destruction of personally identifiable information and the agency's assurances that services are provided in compliance with the General Education Provision Act (GEPA). This plan may be reviewed at:

**Boonville R-1**  
**Section 504 Procedures**  
**Identification, Evaluation, and Placement of Students Suspected of Having**  
**Disabilities under Section 504**

These procedures are pursuant to Board Policy # IGBA-AP3 adopted 8/15/07, revised 9/15/2010.

**PROGRAMS FOR STUDENTS WITH DISABILITIES**  
**(Section 504 and ADA Procedures)**

The purpose of this procedure is to assist district personnel in complying with the requirements of Section 504 of the Rehabilitation Act of 1973 (Section 504) and the Americans with Disabilities Act (ADA). In general, students with disabilities who qualify under Section 504 also qualify under the ADA, and this procedure is designed to identify those students in need of accommodation and provide them necessary accommodations.

**Definitions**

*504 Evaluation*—A process where the 504 team determines whether a student has a disability and needs a 504 plan in accordance with Section 504. A 504 evaluation must draw on information from a variety of sources in the area or areas of concern. An evaluation must be conducted before the 504 team makes an educational placement or makes a significant change in the placement of a student. Evaluation may be based on existing information and observation or may include more formal assessment, including the administration of tests and other specialized evaluation instruments.

*504 Plan or Accommodation Plan*—A written document developed by the 504 team specifying accommodations necessary to provide a free and appropriate public education to a student with disabilities in accordance with law.

*504 Team*—A multidisciplinary group consisting of two (2) or more persons who have knowledge of the student, the meaning of the evaluation data and the placement options. This group could include school employees, necessary professionals, the parent, or others who have knowledge of the student. The 504 team decides eligibility, the accommodations necessary to provide a student with disabilities a free and appropriate public education, and the placement of the student.

*Long-Term Suspension*—Suspensions in excess of ten (10) consecutive school days, or suspensions in excess of ten (10) school days cumulatively in a school year where a pattern of suspension is created. In determining whether a series of suspensions has resulted in a significant change in placement, the district should consider the length of each suspension, the proximity of the suspensions to each other and the total amount of time the student is excluded from school.

*Major Life Activities*—Include, but are not limited to, caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating and working. Major life activities also include the operation of major bodily functions including, but not limited to, the functions of the immune and reproductive systems; normal cell growth; digestive, bowel, bladder, neurological, brain, respiratory, circulatory and endocrine systems; and other major bodily functions.

*Parent*—For the purposes of this procedure and related forms, a biological parent, guardian or person acting as a parent in the absence of a biological parent or guardian. A student who is 18 and otherwise competent assumes the rights of the parent.

*Students with Disabilities*—For the purposes of this procedure, students who have a physical or mental impairment that substantially limits one (1) or more major life activities.

*Substantially Limited*—Unable to perform a major life activity that the average person in the general population can perform, or significantly restricted as to the condition, manner or duration under which an individual can perform a particular major life activity as compared to the condition, manner or duration under which the average person in the general population can perform that same major life activity. In determining whether a student is substantially limited in a major life activity:

1. The district will interpret "substantially limited" broadly.
2. Determinations about whether a disability that is episodic or currently in remission would substantially limit a major life activity will be made as if the disability were currently active.
3. Except for ordinary glasses and contacts, the district will not consider the ameliorative effects of mitigating measures such as medications, assistive technology, auxiliary aids, prosthetics, hearing aids, cochlear implants, mobility devices or oxygen therapy when determining whether a disability substantially limits a major life activity.

### **Medical Marijuana and Cannabidiol (CBD) Oil**

The district does not permit the possession or administration of marijuana or marijuana-infused products for medicinal purposes on district property or at district events since these products are prohibited under federal law. In accordance with state law, parents/guardians with a valid hemp extract registration card may possess CBD oil on district property for the purpose of administering it to their students who are less than 18 years old for the treatment of epilepsy. Students 18 and older with a valid hemp extract registration card may possess CBD oil on district property for the limited purpose of bringing it to the health office where it will be stored with other medications and administered to the student by the nursing staff for the treatment of epilepsy. Students who have an actual prescription for a medication containing CBD will be permitted to possess and administer the prescription medication in accordance with this policy. When applicable, district staff will administer prescription medication containing CBD in the same manner used to administer other prescription medication.

### **General**

The district does not discriminate against persons with disabilities, nor against those who have a record of such an impairment or are regarded as having such an impairment. The district seeks to identify, evaluate and provide free and appropriate educational services to all qualified students with disabilities within the definitions of Section 504 and the ADA. No qualified student with a disability shall, on the basis of disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any district program, including nonacademic services and extracurricular activities.

This procedure will not be applied to students with disabilities who are eligible for services under the Individuals with Disabilities Education Act (IDEA). Those students will receive services in accordance with the IDEA, regulations interpreting the IDEA, the Missouri State Plan, and district policies and procedures implementing the IDEA.

### **Compliance Officer**

The district's compliance officer designated in policy AC is also the district's 504 and ADA compliance officer.

## **Identification**

The district will take measures to identify and locate every student with disabilities and take steps to notify the students and their parents of the district's obligations to provide the student education and accommodations, if necessary.

District staff will contact the district's compliance officer or designee immediately when:

1. Due to a student's medical condition or impairment, a parent asks for a change of schedule, change of facilities or other accommodation that is not routinely provided to students.
2. A parent notifies the district that a student has a medical condition or impairment that could require accommodation.
3. Based on a student's medical condition or impairment, a teacher, nurse or other employee recommends an accommodation that may be necessary for the student to participate in the district's programs.
4. Information about the district's suicide awareness and prevention policy refer to board policy JHDF.

## **Evaluation**

The district will conduct a 504 evaluation of any student who needs or may need accommodation due to a disability before making an educational placement or making a significant change in the placement of the student.

Once notified and provided information that a student may have a physical or mental impairment that could qualify as a disability, the compliance officer will organize a 504 team. The compliance officer or designee will contact the parent and the classroom teacher(s) for additional information for the 504 team to consider and will provide the parent and/or student a copy of the procedural safeguards and notice of evaluation. The compliance officer or designee will obtain written consent for any additional formal assessment. If the parent refuses to consent, the district may request a due process hearing as described below.

The 504 team will meet to examine the existing information and determine whether additional information or testing is necessary and, if so, what information should be obtained before making a decision. The compliance officer or designee will assist the 504 team in obtaining additional information. The compliance officer or designee is responsible for ensuring that:

1. Tests and other evaluation materials have been validated for the specific purpose for which they are used and are administered by trained personnel in conformance with the instructions provided by their producer.
2. Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those that are designed to provide a single general intelligence quotient.
3. Tests are selected and administered so as to best ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude, achievement level or whatever other factor the test purports to measure, rather than reflecting the student's impaired sensory, manual or speaking skills (except where those skills are the factors that the test purports to measure).

## **Eligibility**

The 504 team will decide if the student is eligible for accommodations under the law. To be eligible as a student with a disability, the student must have a physical or mental impairment that substantially limits one (1) or more major life activities. Not all students with medical impairments are eligible as disabled under the law. In interpreting evaluation data, determining eligibility, and making placement decisions, the 504 team shall:

1. Draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background and adaptive behavior.
2. Ensure that information obtained from all such sources is documented and carefully considered.
3. Make a placement decision that complies with the law.

When making a determination, the 504 team will consider the effect the impairment has on the student's performance in comparison with children at the same age or grade in the general population. The 504 team will not consider mitigating measures except for ordinary eyeglasses or contacts.

Once the 504 team determines whether the student is eligible, the district will notify the parents of the decision in writing and will document the reasons for the decision. If the 504 team determines that the student has a disability as defined in law, the 504 team will determine educational placement.

### **Educational Placement**

The 504 team will decide the educational placement necessary to provide a free and appropriate education. The accommodations or services determined necessary by the 504 team and the details regarding those accommodations will be recorded in the 504 plan, provided to the parents in writing and maintained by the district. Information regarding the 504 plan will be provided to all district staff as necessary to ensure that the accommodations are provided to the student. Accommodations will include, but are not limited to, the following:

1. *Academic Setting*—Students with disabilities must be educated to the maximum extent with students who do not have disabilities, unless it is demonstrated by the district that an appropriate education cannot be achieved in the regular environment with the use of supplementary aids and services. This may require modifications to desks, seating arrangements, methods of communication or flexibility to leave the room.
2. *Nonacademic Setting*—Students with disabilities will have the same opportunity to participate in nonacademic activities and services (including meals, recess periods, counseling opportunities and other services) as students without disabilities and will participate in those activities and services with students without disabilities to the maximum extent appropriate.
3. *Facilities Accommodation*—The district must provide facilities to students with disabilities that are comparable to the facilities provided to students without disabilities. Students must have access to restroom facilities, cafeterias, playgrounds and classrooms. When the 504 team places a student in a setting other than the regular educational environment, it must take into account the proximity of the alternate setting to the student's home.
4. *Transportation*—Students with disabilities will be provided appropriate transportation at no greater cost than students without disabilities.

### **Extracurricular and Nonacademic Services**

The district shall provide nonacademic and extracurricular services and activities in such a manner as is necessary to afford students with disabilities an equal opportunity for participation in such services and activities. These services may include, but are not limited to: personal, academic or vocational counseling; athletics; transportation; health services; recreational activities; special interest groups or clubs; referrals to agencies; and employment of students, including employment by the district or assistance in outside employment. Students with disabilities may participate in physical education and athletic activities to the same extent as students without disabilities. The district may offer students with disabilities physical education and athletic activities that are separate or different from those offered to students without disabilities when necessary; however, no qualified student with a disability will be

denied the opportunity to compete for teams or to participate in courses that are not separate or different.

### **Preschool, Summer School and Adult Education**

The district will not exclude qualified students with disabilities from preschool, summer school or adult education and will take into account the needs of the students in determining the aids, benefits or services to be provided.

### **Re-Evaluation**

A student with disabilities receiving accommodations under this procedure will be re-evaluated minimally every three (3) years and before making any significant change in placement. The compliance officer will provide the parent and/or student a copy of the procedural safeguards at the time of the re-evaluation. The scope and extent of the re-evaluation will be determined by the 504 team. The compliance officer or designee will obtain written consent for formal assessment for a re-evaluation unless the district takes reasonable measures to obtain consent from the parent and the parent does not respond. If the parent refuses to consent, the district may request a due process hearing as described below.

### **Access to Records**

Parents will have an opportunity to examine all relevant records, including personally identifiable education records, in accordance with law and as outlined in Board policy and district administrative procedures.

### **Parental Involvement**

The district will involve parents throughout the accommodation process. The compliance officer or designee will provide notice to parents before conducting an initial evaluation of a student. The parents will be invited to participate in the eligibility determination meeting and any meeting during which their child's program is designed and placement is determined, but their participation is not required.

### **Disciplining Students with Disabilities**

Students who qualify for accommodation under Section 504 cannot receive a long-term suspension or be expelled for behavior that is a manifestation of the disability. Before a student may serve a long-term suspension, the 504 team must meet and review the behavior subject to disciplinary action, along with current information regarding the disability, to determine whether the student's actions were a manifestation of the disability. If the behavior was not a manifestation of the student's disability, the student may be suspended and will only receive educational services to the extent that educational services are provided to students without disabilities during a suspension. If the behavior was a manifestation of the disability, the district cannot suspend the student, and the 504 team must determine whether the current educational placement is appropriate. The district will provide students and their parents a copy of the district's procedural safeguards at the time any long-term suspension is imposed.

### **Grievance Procedures**

All complaints alleging discrimination, violation of law or failure to follow district policies or procedures regarding the education or accommodation of students with disabilities will be made to the compliance officer and will be investigated immediately. The district will use the grievance procedure outlined in policy AC. Complaints may be made at any time to the U.S. Department of Education, Office for Civil Rights.

### **Impartial Due Process Hearing**

In the event the parent or district wishes to contest an action with regard to the identification, evaluation or placement of a student with a disability under law, either

party may initiate a due process hearing. The district may do so by notifying the parent in writing. The parent may do so by notifying the district's compliance officer in writing. The request for a due process hearing must include a detailed statement as to the nature of the dispute. Both parties will have the opportunity to participate in the hearing and to be represented by counsel.

The district will immediately secure the services of an impartial hearing officer. The hearing officer will set a date for the hearing and may request additional clarification from either party as to the nature of the dispute. The hearing officer has the authority and the responsibility to create reasonable rules governing the hearing to ensure that relevant information is presented, but that a decision is made as expeditiously as possible. The hearing officer will provide each party a copy of the written decision within 15 calendar days after completion of the hearing. The decision is binding on both parties unless determined otherwise by a court of competent jurisdiction.

### **PARENT/STUDENT RIGHTS IN IDENTIFICATION, EVALUATION AND PLACEMENT**

(Section 504 of the Rehabilitation Act of 1973)

### **Student Records and Directory Information**

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records. Parents or eligible students should submit to the school principal or appropriate school official a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading or in violation of the student's privacy. Parents or eligible students should write the principal or appropriate official, clearly identify the part of the record they want changed and specify why it is inaccurate, misleading or in violation of the student's privacy. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her responsibility as authorized by the district. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of FERPA. Complaints should be directed to: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605.

The district has determined that the following information regarding the district's students is not harmful or an invasion of privacy and therefore will release this information without first obtaining parental consent. If a parent, guardian, person acting as a student's parent in absence of a parent or guardian, or the student (if 18 or older) does not want the district to release the information listed below, they must

notify the district in writing within ten (10) days of receiving this handbook. The following information may be released without obtaining parental consent: Student's name; parent's name; address; telephone number; date and place of birth; grade level; bus assignment; enrollment status (e.g., full-time or part-time); participation in school-based activities and sports; weight and height of members of athletic teams; dates of attendance; degrees, honors and awards received; artwork or coursework displayed by the district; most recent previous school attended; and photographs, videotapes, digital images and recorded sound unless such photographs, videotapes, digital images and recorded sound would be considered harmful or an invasion of privacy.

Pursuant to federal law, military recruiters and institutions of higher education may request and receive the names, addresses and telephone numbers of all high school students, unless their parents or guardians notify the school not to release this information. Please notify the district if you do not want this information released.

The district will respond to a request for records from another school district enrolling a student within five (5) business days of receiving the request. However, if the student's record has been marked pursuant to notification by the highway patrol that the student has been classified as a missing child, the record shall not be forwarded to the requesting district and the district will notify the missing persons unit of the highway patrol of the record request. Upon notification that a student has transferred to any other school district, the district will forward any written notification the district has received from a juvenile officer, sheriff, chief of police or other appropriate law enforcement authority that a petition has been filed in juvenile court alleging that the student has committed an offense listed in § 167.115.1, RSMo., and the notification of disposition of such case, to the superintendent of the new school district in which the student has enrolled.

## **SURVEYING, ANALYZING OR EVALUATING STUDENTS**

### **Inspection**

Any parent may inspect, upon request, any instructional material used as part of the educational curriculum and all instructional materials, including teachers' manuals, films, tapes or other supplementary material, that will be used in connection with any survey, analysis or evaluation as part of any applicable program. Further, a parent may inspect, upon request, a survey created by a third party before the survey is administered or distributed by a school to a student. The term "instructional material" does not include academic tests or academic assessments.

In general, the district will not collect, disclose or use personal student information for the purpose of marketing or selling that information or otherwise providing the information to others for that purpose. ## **Alternative Methods of Instruction (AMI):**

Alternative Methods of Instruction (AMI) can be utilized on days when there is an unexpected school and/or district closure such as inclement weather, utility outages or an outbreak of contagious disease. AMI plans will be shared with families at the beginning of the year, revisited quarterly and prior to its use. In the event of an AMI day, families will be notified through social media and district alert systems. The school district will use online and printed materials for assignments to facilitate teaching and learning. Teachers will be available to communicate with students on AMI days through Google Classrooms and other district approved messaging systems. Attendance will be determined by the completion of lessons and activities through electronic submission of lessons or completion of lessons turned in the next day of attendance. Families that do not have access to the internet or computers need to contact building media specialists for information on the district AMI technology plan.

Staff members are expected to maintain courteous and professional relationships with students. All staff members have a responsibility to provide an atmosphere conducive to learning through consistently and fairly applied discipline and the maintenance of physical and emotional boundaries with students. These boundaries will be maintained regardless of the student's age, the perceived consensual nature of the relationship, the location of the activity or whether the staff member directly supervises the student. See Board Policy GBH.
