

DFY SWIPES - Rewrite These to Fit Your Own List or Use AI

Emojis to Use in Header:

What's ARMagic?

ARMagic is the first cloud app that allows anyone to create, engage with, and easily profit from cutting-edge 3D video augmented reality marketing experiences leveraging new AI technology.

Transform boring sites, lead pages, cards, flyers, and more into magical, interactive AR ones that skyrocket sales and don't require apps or external hardware to engage with.

The futuristic app comes with Commercial technology, allowing you to easily create and sell futuristic augmented reality campaigns to businesses, allowing you to run a lucrative, low-competition agency business.

Angles:

Magical 3D Augmented Reality Marketing that EXPLODES Leads & Sales

In a world where attention spans are under 2 seconds if your marketing looks like everyone else's, it's almost impossible to get ahead (even with cool AI apps).

Now you can leverage new AI to turn boring marketing materials into magical 3D augmented reality ones that look like something from Harry Potter.

These 3D interactive augmented reality experiences work for any business anywhere - on sites, flyers, leadpages, and are proven to explode clicks, leads, & sales.

Previously creating such marketing assets wasn't possible because it required users to download a 3rd party app to experience the augmented reality or buy expensive gear.

But now, anyone regardless of technical experience can make these mesmerizing, interactive augmented reality marketing assets for businesses offline or online.

App Runs a Lucrative AI Augmented Reality Agency for You

The future of marketing involves switching from boring 2D marketing materials to immersive 3D augmented reality experiences that captivate attention.

Small biz owners are seeing big companies doing futuristic AR marketing to rake in billions & want in too.

The problem is that creating 3D interactive augmented reality experiences is super expensive for the little guy and requires downloading external apps.

But, now you can use a new AI tool called ARMagic that transforms boring marketing materials into magical 3D interactive augmented reality video ones & sell them to biz owners.

This lets you run a highly lucrative agency with almost no competition from complete scratch.

Get Ahead of 99% of the Competition with Futuristic 3D Augmented Reality Tech

Doing marketing with marketing materials that look similar to everyone else's will yield average to below-average results (duh).

But now you can put yourself ahead of 99% of the competition by creating magical 3D interactive augmented reality marketing campaigns that stand out from the boring 2D stuff everyone else does.

I'm talking about magical 3D-AR flyers, cards, ads, websites, & ecom experiences that explode sales.

Plus, even run your own lucrative AI-AR agency that's highly unique & can charge premium rates.

The Future of eCom & Sales w/ AI-AR Tech

85% of commerce happens online now...

& the brands that are going to make it in the next year or two are the ones that let potential customers try & experience products in augmented reality as they shop online.

Now, you can compete with the Fortune 100 brands (& get paid to help small shops) with ARMagic - an AI app that creates augmented reality experiences with no external apps or hardware needed.

Let consumers preview products as they shop online with AR tech without having to download strange 3rd party apps & drastically increase sales.

Or create 3D augmented reality marketing experiences from a huge library of options that lead to more leads and sales as users interact and experience them.

Benefits / Features:

Interactive 3D Augmented Reality Experience Maker - create 3D augmented reality marketing materials that sell products, build lists, generate leads, and more as users interact

Drag & Drop Zero Code Editor - easily drag and drop images, videos, 3D models and more anywhere you want to build your scene

Big DFY Augmented Reality Scenes Library - choose from already pre-built 3D AR scenes in tons of niches. Customize however you like or build from scratch.

Magical QR Codes or Images - build a magical QR code visitors can for a 3D AR experience or a magical image they interact with

Skyrocket Leads, Sales, & Brand Recognition - put 3D AR experiences anywhere like sites, lead pages, biz cards, flyers, etc. to separate your marketing from 99% of others

Huge 3D Assets Library to Pick From - type a keyword & pick from tons of 3D models & assets to add to your experience

Built-in Ads, Business Card, & Flyer Builder - customize cards, flyers, ads, & more from DFY templates to put your magic QR code on

Import Your Own Marketing Materials - add your videos, images, 3D assets, etc. to your augmented reality 3D scenes

Preview Products in Augmented Reality - let potential customers preview how different products may look in their home while shopping online increasing online sales

No Apps or Hardware Needed - unlike other AR builders, users don't need to download apps or buy hardware to interact with the AR scene

And even more features like...

- + Commercial technology - sell to businesses that desperately want this
- + DFY Ads, Card, & Flyer Templates
- + Special multiscene 3D tech - display multiple 3D images at once
- + Works on any device instantly
- + Interactive augmented reality actions
- + Easy 'no-code' solution anyone can use

Features written out a different way:

[+] Create 3D augmented reality marketing experiences that are interactive & generate sales

[+] Drag/Drop zero code editor lets anyone easily build 3D AR scenes fast

[+] Choose from already pre-built 3D AR scenes in tons of niches

[+] Put 3D AR experiences anywhere like sites, cards, flyers, etc.

[+] Skyrocket attention, leads, & sales with marketing that separates you from 99%

[+] Huge 3D assets library to pick from - just type a keyword

[+] Built-in ads, cards, & flyers creator to put AR experiences on & sell

[+] Preview how different products may look in a home while shopping online

[+] No downloadable apps or hardware needed to interact with AR experiences (1st ever)

[+] Works on any device instantly w/ 'multiscene' 3D tech

[+] Commercial technology - sell to businesses that desperately want this

YOUR BUNDLE LINK

Why's ARMagic so Groundbreaking?

These AR video marketing campaigns look like something out of Harry Potter &, for the 1st time ever, don't require apps or hardware to interact with.

(Previously to use augmented reality marketing, you had to buy extremely costly software + make the potential customer download apps to make it work.)

Incredible features not found in any other tool include:

Interactive 3D Augmented Reality Experience Maker - create 3D augmented reality marketing materials that sell products, build lists, generate leads, and more as users interact

Drag & Drop Zero Code Editor - easily drag and drop images, videos, 3D models and more anywhere you want to build your scene

Big DFY Augmented Reality Scenes Library - choose from already pre-built 3D AR scenes in tons of niches. Customize however you like or build from scratch.

Magical QR Codes or Images - build a magical QR code visitors can for a 3D AR experience or a magical image they interact with

Skyrocket Leads, Sales, & Brand Recognition - put 3D AR experiences anywhere like sites, lead pages, biz cards, flyers, etc. to separate your marketing from 99% of others

Huge 3D Assets Library to Pick From - type a keyword & pick from tons of 3D models & assets to add to your experience

Built-in Ads, Business Card, & Flyer Builder - customize cards, flyers, ads, & more from DFY templates to put your magic QR code on

Import Your Own Marketing Materials - add your videos, images, 3D assets, etc. to your augmented reality 3D scenes

Preview Products in Augmented Reality - let potential customers preview how different products may look in their home while shopping online increasing online sales

No Apps or Hardware Needed - unlike other AR builders, users don't need to download apps or buy hardware to interact with the AR scene

Commercial Rights Tech - run an AI-Ar marketing agency like new users are doing selling AR marketing materials for \$2000 & up

Because I Know This Set You Apart from 99%, I'm Offering a HUGE Bonus That Includes

Follow Up #1 One-Person AI Businesses with No Competition

He Went from 0 to 6 Figures w/ New Augmented Reality Tech.

AI-AR Tech Let's Newbies Run 'Single Person' Businesses

AI-AR Built a Newbie a 6 Figure Biz (New AR Technology)

AI-AR App Runs a Hyper-Niche 'Single Person' Biz from Scratch

==

Thanks to AI, there's a new trend of single founders making 6 figures a year without having to manage any sort of team or learn anything complicated.

A new technology was just released that's helped several beta testers already do the same.

It's called ARMagic and lets anyone run a lucrative AI augmented reality marketing agency with almost no competition.

See it here before the next price increase: [YOUR LINK](#)

How's ARMagic Let Newbies Do This?

These AR marketing campaigns look like something magical out of Harry Potter &, for the 1st time ever, don't require apps or hardware to interact with.

(Previously to use magical AR marketing, you had to buy extremely costly software + make the potential customer download apps to make it work.)

There was always incredible demand for this sort of thing, but no one could serve the millions of small businesses until now.

Incredible features not found in any other tool include:

Interactive 3D Augmented Reality Experience Maker - create 3D augmented reality marketing materials that sell products, build lists, generate leads, and more as users interact

Drag & Drop Zero Code Editor - easily drag and drop images, videos, 3D models and more anywhere you want to build your scene

Big DFY Augmented Reality Scenes Library - choose from already pre-built 3D AR scenes in tons of niches. Customize however you like or build from scratch.

Magical QR Codes or Images - build a magical QR code visitors can for a 3D AR experience or a magical image they interact with

ARMagic QnA - Top Questions Answered About the Stunning Opportunity

ARMagic - Your Top Questions Answered

—

I've been telling you about a revolutionary agency app just launched that creates mesmerizing 3D augmented reality marketing materials from scratch.

Since this is such a revolutionary & innovative opportunity, I've called the creators & got some answers to your most common questions:

Q: Does the User Need to Download an App or Hardware to See the AR?

Not at all. ARMagic is the 1st solution that lets you experience augmented reality without the need to download a 3rd party app or buy expensive gear.

Q: Do we need to buy external solutions or integrate API keys?

Nope, no need to buy or invest in anything else.

Q: I already bought unique AI apps, do I need this too?

In a world where attention spans are under 2 seconds, if you have marketing that looks like everyone else's it's almost impossible to get ahead... even with cool AI apps.

This uses unique AI to turn boring marketing materials into magical 3D augmented reality ones.

The future of marketing is the switch from boring 2D marketing materials to immersive 3D augmented reality experiences that captivate attention.

So, you can start now with the 'first movers' advantage, or wait and have to play catchup paying higher fees and losing out on clients you could have won now.

Q: What kinds of AR experiences does it create?

You can AR experiences for every type of marketing purpose out there. Do things like...

- Create AR experiences that get the user to opt-in for lead generation
- Create AR educational experiences for coaches/consultants
- Create AR experiences for sales & retention-based marketing
- Create AR experiences that let viewers try products without being in a store
- & much more.

The magic QR code & image technology lets you embed these anywhere online OR offline like on flyers, biz cards, websites, and more.

Q: How do we use these AR experiences to increase sales?

Most websites, flyers, biz cards, & other marketing materials get ignored these days. 98% of visitors will 'bounce' and never interact with your ad, leadpage, flyer, etc.

ARMagic provides a revolutionary way to reduce this bounce rate for higher attention. If you think about it, attention is the new 'currency' and those that leverage it will make the most money and win the most business now and into the future.

So, you can embed augmented reality experiences that get visitors to take action or reinforce key selling points on ANY marketing material you want that visitors can interact with immediately.

Just a 2-7% bump in attention & conversions (which ARMagic will do far more) can mean the difference between a business generating little to no leads or a business going on to dominate their industry.

Just like video marketing revolutionized selling online, augmented reality video will do the same only more.

Q: Is this app hard to use?

No, this is the first-ever no-code easy-to-use app that lets anyone create amazing augmented reality experiences from scratch.

Even if you've never had success online and think you're bad at technology, you can have results with this.

Q: Is this a recurring fee? If not how can you offer something so advanced for so little?

There will be a recurring fee soon, but during the founder's discount special you can get access with NO monthly fees or hidden costs.

Q: How Much Can I Charge as an Agency?

Newbies are charging \$1000+ per AR marketing material and landing clients for \$2000/month fees. That's very low compared to what other AR agencies are charging.

Q: Where Do I Get the Clients as an Agency?

You can find these clients just about anywhere such as Fiverr, Upwork, etc. All they have to do is see a demonstration and their in.

If you buy today you'll qualify for special training that will walk you through additional steps to guarantee you land your first client.

Q: Is There Detailed Training?

Yes! ARMagic is super easy to use & there are detailed training & tutorials for you & small business customers + 24-7 support.

The price will be increasing soon so make sure to get access here now:
