

Technology at Home Survey / DPI Digital Equity Gap Data

The Wisconsin Department of Public Instruction (DPI) and the US Department of Education have generated a Technology at Home Survey to ensure school districts are able to: (1) track and support the individual needs of every student; (2) identify possible Internet providers that can serve a location; (3) provide local community partners with critical data needed when submitting broadband grant applications; (4) advocate and plan for broadband investments in your community; and (5) fulfill any state or federal reporting requirements which may arise with CARES, E-rate, or other funding.

We ask that you please complete this survey for your family/students and return it with your registration materials. Thank you.

Name: _____

Students / Grades: _____

Question 1: Can the student access the internet on their primary learning device at home?

-  Yes
-  No - Not Available
-  No - Not Affordable
-  No - Other
