

The Treaty of New Kryapolis

In an effort to ensure peace and prosperity for both the Auroran Republic and the Federation of Concordia, the signatories of this treaty do hereby agree to the following terms:

- 1) The village of New Kryapolis will remain in its current location and the Federation of Concordia will relocate the road and block housing built around the borders of the village.
- 2) Concordia acknowledges and agrees to respect Auroran sovereignty over the rectangle that defines the village of New Kryapolis and a southern square, measuring 500x500 blocks. The coordinates serving as the four corners of the village are (685,-162), (685,-327), (770,-162), and (770,-327). The coordinates serving as the four corners of the southern square are (750,0), (750,500), (1250,0), and (1250, 500). These coordinates are in the shard known as "Tjikko" or the "taiga shard."
- 3) Concordia also acknowledges and agrees to respect Auroran sovereignty over a corridor of land 20 blocks wide which will directly connect the southern square and the village rectangle. This corridor shall be defined as the land between the x-coordinates of 750 and 770 and shall stretch from the southern border of the village rectangle to the northern border of the southern square.
- 4) Aurora agrees to designate two sections along the corridor established by clause three. These two sections will be agreed upon by the Government of Concordia and the Chancellor of Aurora when their usage becomes necessary. At these two sections, the Federation of Concordia will be guaranteed the right to build road underpasses and and railway tunnels across the corridor. These tunnels and underpasses may be no more than 11 blocks wide and may not interfere with Auroran infrastructure.
- 5) The Federation of Concordia and the Auroran Republic mutually guarantee the right of each other's citizens to enter and exit their respective territories, and freedom of movement within each other's territories, subject to relevant and reasonable government regulation. Both governments, however, reserve the right to temporarily lock down borders in times of national crisis. This lockdown may not last longer than 12 hours without the agreement of the other government.
- 6) The Auroran Republic and Federation of Concordia mutually guarantee that neither shall establish tariffs, import taxes, or other such barriers to commerce between the two nations. Each nation, however, recognizes the right of the other to the creation of internal economic policies. Should one nation feel that the other is establishing policy that violates this clause, they may lodge a formal complaint with the government of the offender and temporarily suspend this clause until a solution is found.
