Abstract

(Times New Roman, 12pt, Sentence Case, Align Center)

Write your abstract here using times new roman font, 12pt. The abstract should be written in english and must clearly present the problem statement, the objective of the paper, the research methodology, findings, limitations, and the results that provide a solution to the problem. The abstract must be able to stand alone without footnotes; therefore, references should be avoided in writing an abstract. Additionally, abbreviations should be avoided in this section.

(Times New Roman, 12pt, Justify, Italic, Abstract Contains A Summary Of The Writing: The Problem Being Discussed, Approach Or Suggested Solution And Result Of The Solution/ Conclusion. Abstract Is Between 100 To 200 Words)

Keywords: Keyword 1, Keyword 2, Keyword 3

(About 2-5 Keywords In Alphabetical Order, Separated By Comma, Times New Roman, 12 Pt, Italic)

Introduction

(TimesNewRoman, 12pt, Justify)

In this section, writer presents the research context and the significance of the chosen topic. Writer explains the identification of the underlying research problem, the urgency of conducting this study, and the expected contributions. Additionally writer may describe the identified research gap and how this study aims to address it. The research objectives will be explicitly stated, and hypotheses will be proposed if relevant.

Literature Review

(TimesNewRoman,12pt, Justify)

In this section, writer presents a theoretical synthesis and a literature review relevant to the research topic, demonstrating the correlation between this study and previous research. Recent literature will be integrated, research trends will be identified, and the theoretical framework used will be explained. The relationship between past studies and the current research will be emphasized to highlight this study's contribution to the advancement of knowledge. The literature review should include at least 10–15 high-quality works, incorporating recent research. In-text citations should follow the APA (American Psychological Association) referencing style, and the writer should avoid using the author's name as the subject of the sentence.

ResearchMethodology

(TimesNewRoman,12pt,Justify)

In this section, the writer should present the materials, methods, survey questionnaire, and other research used in this study. writer should also explain the research method applied in this study(experiment, review, simulation, or surveys). In order to give enough information to enablethe reader to understand what was done. Additionally, state the brand names of softwareapplications and hardwares that were used during study was conducted. Mention clearly theprocess of data analysis, all research conditions, assumptions, and theories used.

Results and Discussion

(TimesNewRoman,12pt,Justify)

This section is the most important part of the paper. In this section, the writer should provide logical, scientific analysis of findings of the study and also should contain as much detail about the findings. Present evidence to support your analysis by citing work of earlier researchers or existing theories.

Table 1: Table's Title

(Times New Roman, 12 pt, Justify)

| No | Variable | Category | Frequency (F) | Percentage |
|-----------|-----------------|-----------------|----------------------|-------------------|

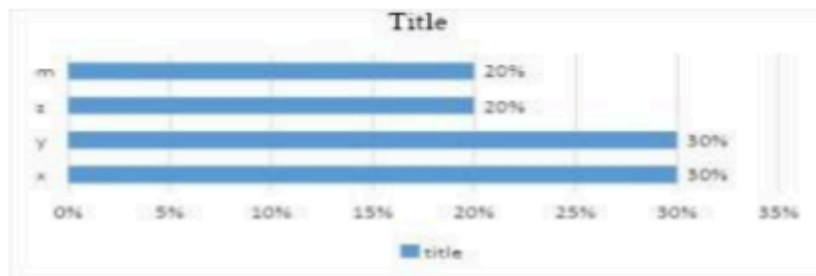

Figure 1: Figure's Title
(Times New Roman, 12 pt, Justify)

(Source:)

Equation & formula. Equations should be centred and should be numbered and should be numbered consecutively throughout the manuscript as Equation 1, and Equation 2.

$$T_s(l, t) = T_g(l, t) \tag{1}$$

$$T_s(l, t) = T_g(l, t) \rightarrow x - \beta, t = 0 \tag{2}$$

Use italics for variables (*u*) and bold (**u**) for vectors. The order for brackets should be $\{[()]\}$, except where brackets have special significance.

Conclusions

(TimesNewRoman, 12pt, Justify)

The conclusions should explain how the objectives of the study are accomplished and should be written in a very clear word.

Acknowledgement

(Times New Roman, 12pt, Justify)

This section contains a statement regarding the sources of finding and also contains acknowledgment for those who contributed in the research process.

References

(Times New Roman, 12pt, Justify)

Every reference in the article should be mentioned in the form of in-text reference and using APA (American Psychological Association) referencing style. Authors are responsible for ensuring that the information in each reference is complete and accurate. For journals the following information should appear: names (including initials of the first names) of all authors, full title of the paper, and journal name, volume, issue number, pages and year of publication. For books the following should be listed: author(s), full title, edition, publisher, place of publication and year. At least 15 references should be attached. Reference list is alphabetically arranged by the last names of the first author of respective work.
