Agenda

Announcements

* Myles - excited to share that Beth has cut the 15.0.0 RC 1, comes shipped with npm RC 3.
Please try it out and let us know if you have any issues.

CPC and Board Meeting Updates

*Extracted from **tsc-agenda** labeled issues and pull requests from the **nodejs org** prior to the meeting.

nodejs/node

Before this gets lost in the comment history of [nodejs/node#35014](#), I'd like to get [nodejs/node#34055](#) and [nodejs/node#34962](#) into v15.0.0.

[nodejs/node#34895](#) has also been mentioned

- * Mary is going to take a look to see if we can get it in to a later 15.x versus 15.0.0.

- * lib: add EventTarget-related browser globals

[#35496](<https://github.com/nodejs/node/pull/35496>)

- * Heads up to see if there are any objections? None voiced in the meeting.

- * 2020-10-20, Version 15.0.0 (Current) [#35014](<https://github.com/nodejs/node/pull/35014>)

- * on agenda for FYI

- * PR that had caused deprecation with npm was backed out.

- * Rename default branch from "master" to "main" or something similar

[#33864](<https://github.com/nodejs/node/issues/33864>)

- * Next step is to switch over Nodejs.dev, slowly moving over issues.

nodejs/admin

- * Audit Google account access [#389](<https://github.com/nodejs/admin/issues/389>)

- * No progress.

Strategic Initiatives

- * Modules

- * Myles, released a few new features on 14.x including being able to do named exports on CommonJS modules, some great new features and patterns

- * major revamp of the documentation since quite a big of the features work both on CJS and ESM

- * one more SemVer minor expected for 12.x so that it will have similar features (except for top level await)

- * Not quite ready to say its stable, but getting close, maybe by the end of the year.

- * Build resources

- * Nothing to report

- * Future of build chain

- * Nothing to report

* Next 10

- * ongoing discussions, working on what the constituencies need as the next step.

* corepack

- * Myles is corepack landing something we would consider to be SemVer major?

- * Michael, does not seem to be SemVer major, don't personally think that we need to rush.

- * Mary thinking along the same lines
