GROUND RULES

- We will respect the meeting time and agendas.
- We will ask that questions are held to the end of each report and be on topic.
- Non-Agenda items will be addressed after the prepared reports and if the scope of the question is too big for this meeting, we will add it to the agenda for the following month or ask for a meeting with the interested parties during the month.
- We will monitor the chat and zoom to ensure effective remote participation.
- We will continue to evolve as we go!
