

SARATH AI

Privacy Policy

Effective Date: March 27, 2026 | Version 7.0.0

Your Privacy, Our Commitment

Sarath AI is designed with a privacy-first architecture. All your conversations, memories, files, and personal data are stored exclusively on your device. We do not transmit, sell, or share your personal data with third parties.

1. Introduction

Welcome to Sarath AI ("the App"), an intelligent chat application developed to provide AI-powered assistance for everyday tasks including coding, research, creative writing, and more. This Privacy Policy explains how we collect, use, store, and protect your information when you use the Sarath AI mobile and web application.

By using Sarath AI, you agree to the practices described in this Privacy Policy. If you do not agree, please discontinue use of the App.

2. Information We Collect

2.1 Information You Provide

When you use Sarath AI, the following information may be processed locally on your device:

- Account information (name, display preferences) for personalized greetings and settings
- Chat messages and conversation history you create within the App
- Files you upload for AI analysis (PDF, DOCX, TXT, CSV, JSON formats)
- Images you upload for multimodal conversations (PNG, JPG, GIF, WebP formats)
- Project names and organizational structures you create
- Memory data and personal preferences you configure in Settings
- Voice inputs when using the Live Voice feature

2.2 Automatically Collected Information

The App may collect the following technical information to ensure proper functionality:

- Device type and operating system version (for compatibility)
- App usage patterns and feature interactions (stored locally only)
- Error logs and crash reports (for debugging, not linked to personal identity)
- Location data, only if you explicitly enable Location Settings in the App

2.3 Information We Do NOT Collect

Sarath AI does not collect:

- Browsing history from the Sarath Browser feature
- Content of your AI conversations transmitted to remote servers without your knowledge
- Biometric data or sensitive personal identifiers
- Payment information or financial data

3. How Your Data Is Stored

Storage Location	All data is stored exclusively on your device (local storage)
Server Transmission	Conversation data is not transmitted to external servers
Encryption	Data at rest is protected using your device's built-in security
App Lock	Optional App Lock feature provides an additional security layer
Memory Data	Memories and preferences remain on your device only
File Uploads	Uploaded files are processed locally and not stored on remote servers

Because all data is saved on your device, you maintain full ownership and control of your information at all times. Uninstalling the App will permanently remove all locally stored data.

4. How We Use Your Information

Information processed by Sarath AI is used solely to:

- Power and personalize your AI chat experience with OM 3.5
- Enable features such as Deep Research, Study Mode, Image Generation, and News Search
- Remember your preferences, tone settings, and chat bubble colors across sessions
- Organize your conversations into Projects for productivity
- Provide the Sarath Browser experience with your chosen search engine
- Enable Live Voice interactions through your device microphone
- Improve App performance and fix technical issues via local error logs

We do not use your data for advertising, profiling, or any commercial purpose beyond delivering the App's core features.

5. AI Features & Third-Party Services

5.1 OM 3.5 AI Model

Sarath AI is powered by the OM 3.5 (Open Media Intelligence Model 3.5) AI engine. When you send messages, the App processes your input to generate responses. The specifics of how OM 3.5 processes data are governed by the terms of the underlying AI model provider.

5.2 Sarath Browser

The built-in Sarath Browser allows you to search the web using Google, Bing, DuckDuckGo, Yahoo, and Brave. When you use this feature:

- Search queries are transmitted to your chosen search engine's servers
- Each search engine has its own privacy policy governing how it handles your queries
- We recommend reviewing the privacy policy of your preferred search engine
- Quick Access links (YouTube, Wikipedia, GitHub, Reddit) are standard web navigations

5.3 News Search

The News Search AI Tool may fetch publicly available news content. News queries are processed according to the policies of the underlying news data providers.

5.4 Deep Research

Deep Research uses dual AI capabilities to gather and synthesize information. Research queries may interact with external knowledge sources. No personal information is included in these research queries beyond what you explicitly type.

6. Data Sharing & Disclosure

We Do Not Sell Your Data

Sarath AI does not sell, rent, trade, or share your personal data with any third parties for marketing or commercial purposes. Your conversations are yours alone.

We may disclose information only in the following limited circumstances:

- **If required by applicable law, regulation, or valid legal process (e.g., court order)**
Legal Compliance:

- **To protect the safety, rights, or property of users or the public when there is an imminent threat** Safety:
- **In the event of a merger, acquisition, or asset sale, users will be notified before data is transferred and becomes subject to a different privacy policy** Business Transfer:

7. Your Rights & Controls

As a Sarath AI user, you have full control over your data:

Access	View all your data through the Chat History and Settings menus
Delete	Delete individual chats, projects, or all data by uninstalling the App
Export	Use the Memory Import/Export feature to manage your memory data
Correct	Update your account information and preferences in Settings > Account
Restrict	Disable specific features (location, voice, memories) in Settings
Opt-Out	Sign out and delete the App at any time to stop all data processing

8. Security

We take the security of your data seriously. Sarath AI implements the following security measures:

- App Lock feature to prevent unauthorized access to the App
- Local-only data storage eliminating risk of server-side data breaches
- Location data access only when explicitly permitted by you
- No transmission of conversation data to external servers without user action

While we implement strong security practices, no method of electronic storage is 100% secure. We encourage you to use the App Lock feature and keep your device's operating system updated.

9. Children's Privacy

Sarath AI is not directed to children under the age of 13. We do not knowingly collect personal information from children under 13. If you believe a child has provided personal information through the App, please contact us immediately at the address below, and we will take steps to remove such information.

10. Changes to This Privacy Policy

We may update this Privacy Policy from time to time to reflect changes in our practices or for legal, operational, or regulatory reasons. When we make material changes, we will:

- Update the "Effective Date" at the top of this policy
- Notify you through an in-app notification or prompt
- Provide the updated policy within the App's Settings section

Your continued use of Sarath AI after any changes constitutes your acceptance of the updated Privacy Policy. We encourage you to review this policy periodically.

11. Contact Us

If you have any questions, concerns, or requests regarding this Privacy Policy or your data, please contact us: sarathai@openflip.in
