

01/10/24

Happy New Year!

We are looking forward to working with all of you over the coming year. As you know, our focus will be on practicing intentional leadership for our **XXXXX**. Over the time we will partner with you on our learning we will draw from XXXX Leadership Standards.

On January 29th, we will have a virtual kick-off to our professional learning. Considering our need to see ourselves as a collective, we have included the following learning intentions for the opening session.

Date - Monday, January 29th

Time - 1:00 - 4:00 pm Atlantic

Zoom - We will be using Zoom. Please find the link to the Zoom here.

The 29th session will focus on:

- How we can begin to practice more intentional leadership given all of the demands of our positions.
- The importance of knowing who you are leading. How do we value where they are on the learning continuum as a beginning stage of building human interconnectedness?
 - What these sessions will mean for our school leadership teams back in our schools.
- How we come together as a larger network across XXXX.

In order to best meet your needs, we have created a Google intake form, which is linked here. Please fill out the short form to help us begin to build the learning culture for our network.

We look forward to our partnership.

Michael Nelson & Peter DeWitt
