

Conspiracy Writing Assignment

For your essay/written piece, I would like you to consider the film Conspiracy and choose one of the following prompts to respond to what you think and feel about this film and its subject matter. Remember we said that you could use the meeting minutes, your reading material and images from the film to help you write this assignment.

1. A Free Write: For this option I will give you the opportunity to express your reaction in any written form you choose, but please include factual information to illustrate or expand your ideas.
2. A Journal entry: In this option you take on the role of one of the men present and write a report/reaction to the meeting that has taken place...one suggestion is to take the point of view of the transcriptionist. As above, please include factual information.
3. The final option is to write from the point of view of a reporter for a major news agency who has found the only copy of the minutes to the meeting and has decided to break the story of the meeting and its subject matter to the world. Note you can place this in the present or in Nazi Germany or Europe at the end of WWII. It goes without saying, but please include factual information in your piece.
