"It's time to put down the pen on paper, deal with it right now
instead of later."

Bille Bust Up self insert. Shipped romantically with Fantoccio, platonically with Barnaby, and familially with Billie. Probably at least the platonic and familial section will expand once the game drops

A peculiar individual Billie meets during her stint at Dutch's hotel and later teams up with—since they're looking to uncover proof of Dutch's corrupt dealings, their mission overlaps with hers. The two part ways afterwards...only to meet up again, more briefly, within Barnaby's castle and Fantoccio's theater. Millstone claims to possess no magical ability...but then how *do* they keep getting into such improbable places without anyone ever noticing?
