- 150. Melissa Shaffer
- 151. Ryan Wolf

Graduate Student Testimony:

"It is an egregious injustice to ask graduate students to make significant 'sacrifices' at this time without also meeting these reasonable demands for additional compensation."

"Those who teach are the backbone of the university. Without us, the entire university is pointless. I understand that the endowment funds are tied up and inaccessible, so it is on the president and the higher administration to take significant pay cuts in order to continue to adequately pay and provide professional support for adjuncts, graduate students, contingent faculty. For the president, deans of colleges, and other highly-paid administrative staff to continue to make many times what the average instructor at Fordham makes in this time of crisis would be hypocrisy of the highest order, and a total, public abdication of any of the Jesuit values Fordham claims."

"My family and I are being put at risk by having to move to a different city during the pandemic. We cannot afford to pay NYC rent without guaranteed funding for the upcoming academic year."

"As both a parent and a graduate student at Fordham, I implore Father McShane and the rest of the university administrators to ensure the safety and survival of the members of our community by agreeing to the needs listed in this petition."

"Graduate students' lack of dental insurance has been a burdensome problem. Now, broader financial pains are now entering the picture due to covid-19."

"Due to covid-19, no opportunities exist for supplemental funding over the summer months that our stipends don't cover."

"Break the rules and dip into that endowment!"

"It is frankly **immoral** to ask graduate students to give up their right to maintain outside employment during the academic year, and then to stop paying them under these conditions."

"Father McShane: What would Jesus do? I think you know."

"We need a stipend in all graduate degree programs and should be funded to begin with."

"The financial hardship of coronavirus needs to be addressed specifically at the level of Fordham University's tuition and aid. This is supposed to be a Jesuit University, and the tenets that Fordham's administrators say they abide by are not being honored in a way that would truly help your faculty, staff, and students."

"Where are those Jesuit values, Fordham? Treat us like we matter! The University runs because of our work."

"There are five or so students in every department whose funding expires now. HOW are they going to find jobs to support their families this summer and fall 2020? We need a one-year extension on all funding packages."

“Not giving federal stimulus money to students isn't very Jesuit, is it?”

Faculty Testimony:

“Cura Personalis.”

“Do the Right Thing, Don't Be Moral/Ethical Hypocrites. Honor and Adopt These Demands Forthwith!”

Statements from the Broader Community

“If these requests should seem like the desires of a few individuals rather than a community that has been systematically rendered precarious by the university, I would encourage anyone to add together the top five salaries at Fordham University to see just what really happens when the desires of a few individuals are prioritized.”
