

## Cañizares Center for Emerging Markets

### 2026 SUMMER INTERNSHIP

June 15 - July 23, 2026

If interested, apply [https://johnson.qualtrics.com/jfe/form/SV\\_ba81UuiCr0rgSbA](https://johnson.qualtrics.com/jfe/form/SV_ba81UuiCr0rgSbA)

**Applications** from March 1 to 15th. Interviews will follow.

Please read the EMI report and explore EMI's social media presence and website before the interview and, if selected, before the interview

- The unpaid internship will be **hybrid** between **June 15 and July 25, 2026**
  - **June 15-22 onboarding workshops**
  - **Final Presentations July 24**
- Eligibility: undergraduate students from Cornell University, Cornell Global Hubs and Universidad de los Andes in Colombia.
- Once the submission period ends, we will reach out to students about next steps.
- This internship is unpaid and part-time (about 25 hours per week). It is incompatible with another full-time internship, though may be paired with another part-time internship.
- Interns will be expected to attend the workshops and onboard meetings the week of June 15 and the final presentation on July 24.
- The internship is hybrid. However, no funding is available for housing should they choose to stay in Ithaca. You can apply for funding from Cornell.
- Interns will do a variety of tasks including digital marketing, research, case development and helping with the organization of the EMC<sup>2</sup> conference. Interns are expected to do two (or more) different projects including design and digital marketing.
- Interns will be expected to attend two weekly meetings either on Zoom or in-person: one general team meeting, and a meeting with the team they are working with (research or digital marketing).
- MBA students will offer career coaching sessions

### RESEARCH for the EMC<sup>2</sup> report, data analytics, working papers and blogs

As a research intern for the Cañizares Center for Emerging Markets, you will be part of the EMC<sup>2</sup> research team to assist in the creation of tables and figures for EMC<sup>2</sup>'s annual [report](#) 2026 and working papers. In addition to gaining familiarity with widely used databases, including S&P Capital IQ, Bloomberg Terminal (training in person

only), LSEG Refinitiv, and Moody's Orbis, Pitchbook and others, you will build skills in understanding key trends and policy issues in emerging market countries, as well as business writing. The position of research intern is a great learning opportunity for undergraduates interested in bridging the gap between economic theory and its applications, and for students interested in data analytics, finance and the markets, at large.

A strong knowledge of Excel, Power Point, Power Bi, N8n.io, AI tools like ChatGPT and others is highly appreciated. As well as coding

### Position Overview:

- Compile statistics through S&P Capital IQ, Bloomberg Terminal (in person only), FT FDI Markets, World Bank, IMF and other databases for analysis in the EMC<sup>2</sup> annual report.
- Summarize key economic policies and trends in emerging market economies.
- Work on business style writing projects, with potential for publication on the EMC<sup>2</sup> website.
- Strengthen your communication and presentation skills via weekly team meetings.
- Complete/update/compile information for emerging market multinationals case studies.

### Expectations:

- Complete all assigned projects in a timely manner.
- Attend and present work at weekly meetings.
- Attend mandatory training sessions and workshops the week of June 15 and the final presentation on July 24.
- Provide insight to improve EMC<sup>2</sup>'s report and research posts on our social media pages.

## DIGITAL MARKETING

We are looking to enhance the Center's brand and wider social media presence. Interns will work in a team to increase outreach within the Cornell community and beyond, and will help maintain the Center social media accounts by designing posts and brainstorming new series to feature on our pages. Moreover, interns will help write blogs covering events and conferences the center partakes in, as well as edit videos and interviews for our YouTube account. This provides a great opportunity for undergraduates who are interested in marketing and are looking to be part of EMC<sup>2</sup>'s growth as we move into the next decade.

### Position Overview:

[www.emc2conference.com](http://www.emc2conference.com)

<https://business.cornell.edu/centers/ccem/>

EMI reports: <https://business.cornell.edu/centers/ccem/emerging-markets-report/>  
[contactemc2@business.cornell.edu](mailto:contactemc2@business.cornell.edu)

- Develop a strategy to maximize outreach within Cornell community and beyond.
- Maintain social media pages by designing and publishing new posts via Canva, Adobe Acrobat and brainstorming/implementing new ideas.
- Edit videos with CapCut or iMovie to be featured on social media pages and edit interviews to be featured on our YouTube account.
- Write blog posts covering events/conferences the center partakes in, to be ultimately featured on the EMC<sup>2</sup> website.
- Update the EMC<sup>2</sup> and the conference websites.
- Follow up the case and the pitch competition marketing/logistics.
- Help with the organization of the EMC<sup>2</sup> conference.

## Expectations

- Complete assigned tasks in a timely manner.
- Attend and present work at weekly meetings.
- Attend mandatory training sessions and workshops.
- Provide insights to build upon and improve EMC<sup>2</sup>'s research and outreach programs.
- Contribute to EMC<sup>2</sup>'s goal of creating a more cohesive brand and wider presence on Cornell's campus and beyond.
- Design EMC<sup>2</sup>'s year-in-review.
