

SMUSD Ed Tech Quick Guide

Cloud Password Change - Students

Cloud Password Change for Students (grades 3-12)

- Go to cloud.smusd.org and login with your current username and password

- Click on Account at the bottom of the screen

- Click on Pwd Reset first to set security questions for future password reset

This is a very important step!

- Select a question from the dropdown menu and type in the answer below.
- If you forget your password, this is how you reset your password to login to the SMUSD Cloud.

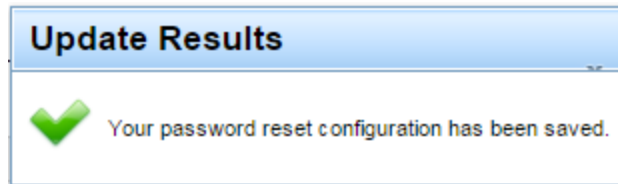

Password Reset Configuration

Choose one of the questions in the list for each question, then provide an answer. You will have to answer these questions successfully if you ever need to reset your password.

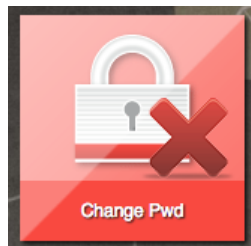

Challenge Questions	
Question 1:	What city were you born in?
Answer 1:	
Question 2:	Favorite number?
Answer 2:	

[Update Configuration](#)

- After selecting the question and answering them - click on Update Configuration and your data will be recorded. You will get an “Updated Results” pop-up

- Click the  at the top right of the screen of your cloud page
- Click the Change Pwd tile

- Type in your current password - and then type your new password twice
 - See “Password Tips” below for tips on making a good, secure password

Change Password

New Password:	
Confirm Password:	

Change Password

- Your password has been reset!

Password Tips

- Passwords need to be at least 8 characters long. Your password does not have to have numbers, special characters (#@!*%) or upper/lower case letters in it, but we encourage you to use them to make your password more secure.
- Substituting numbers or characters (with some capitals) like P0p\$ic!#swill make it harder to guess, but it may also be harder for you to remember.
