

Here's how I predict the judgment will end with only having read one response:

Luke Cage and Greninja are objectively irrelevant compared to Savage Hulk, they cannot hurt him ever and they die in one hit.

Pikachu's electricity is not secretly at a level where it can instantly vaporize anything outside of the Pokemon universe, it is clearly not at that level, Pikachu clearly isn't going to vaporize anyone, and the idea that everything and everyone in Pokemon is just massively resistant to lightning and Pikachu would accidentally cause that is ridiculous.

Every argument about Hulk's behavior, motivation, or anything else is clearly in Wolf's favour, the claims made by embrace are clearly wrong and in some cases frankly ridiculous.

As such Savage Hulk will just solo the opposing team, they have no one capable of causing any significant harm to him whatsoever and the entire enemy team can be defeated in a single blow.

Response 1

I still don't want to write long summaries so I'm just gonna note things that stuck out to me stupid.

Embrace

- Kevlar..harder to pierce than steel..lol
- The Toriko feat you claimed was the best in the RT was image 1 of 3 of an album where his punch proceeds to bore through several meters of reinforced concrete, and also not his best feat.
- The claim that Pikachu can tank Toriko because he tanked a hit that..cut down a tree?
- The claims that Pokemon would just violently murder their opponents at the outset of a match

Wolf

-yea

Response 2

- Hulk jump angles, I have a feeling that you're about to learn something new in Wolf's response to this argument
- "Hulk is more likely to turn into Savage Banner" ..no, I don't know why you would try to engage Wolf in a Hulk lore argument like this, but even I already know that Savage Banner only exists in the context of Professor Hulk, not Intelligent Hulk.
- Kluh, seriously why did you argue this? Did you expect that Hulk had no scenarios where he was sad besides a singular scenario that also involved Axis?

- "80s Hulk isn't Classic Hulk" It in a literal sense is.
- "Silver Surfer, a herald of Galactus, is somehow in Spidey's weight class." LOL
- "Luke only weighs however much, falling can't do that much damage" I have a feeling that you're about to learn something new in Wolf's response to this argument

Wolf

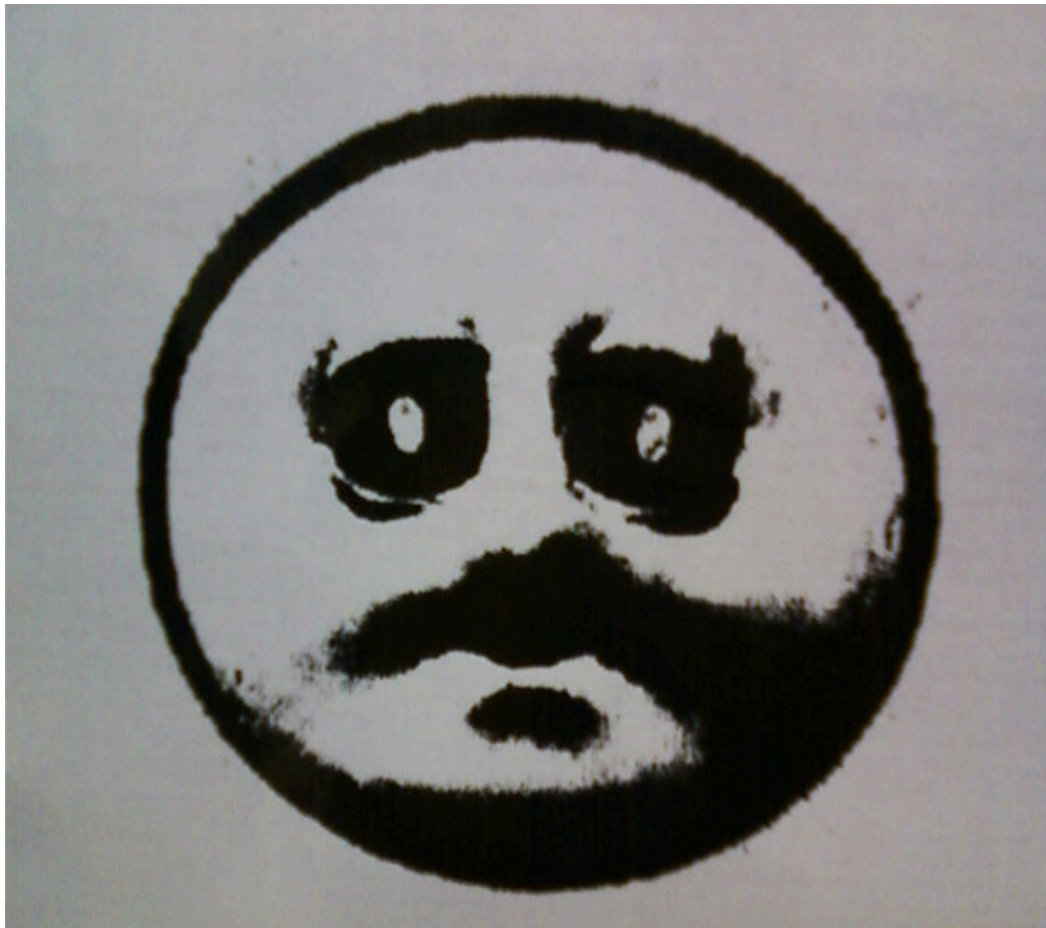

-yea

What the fuck is even happening anymore

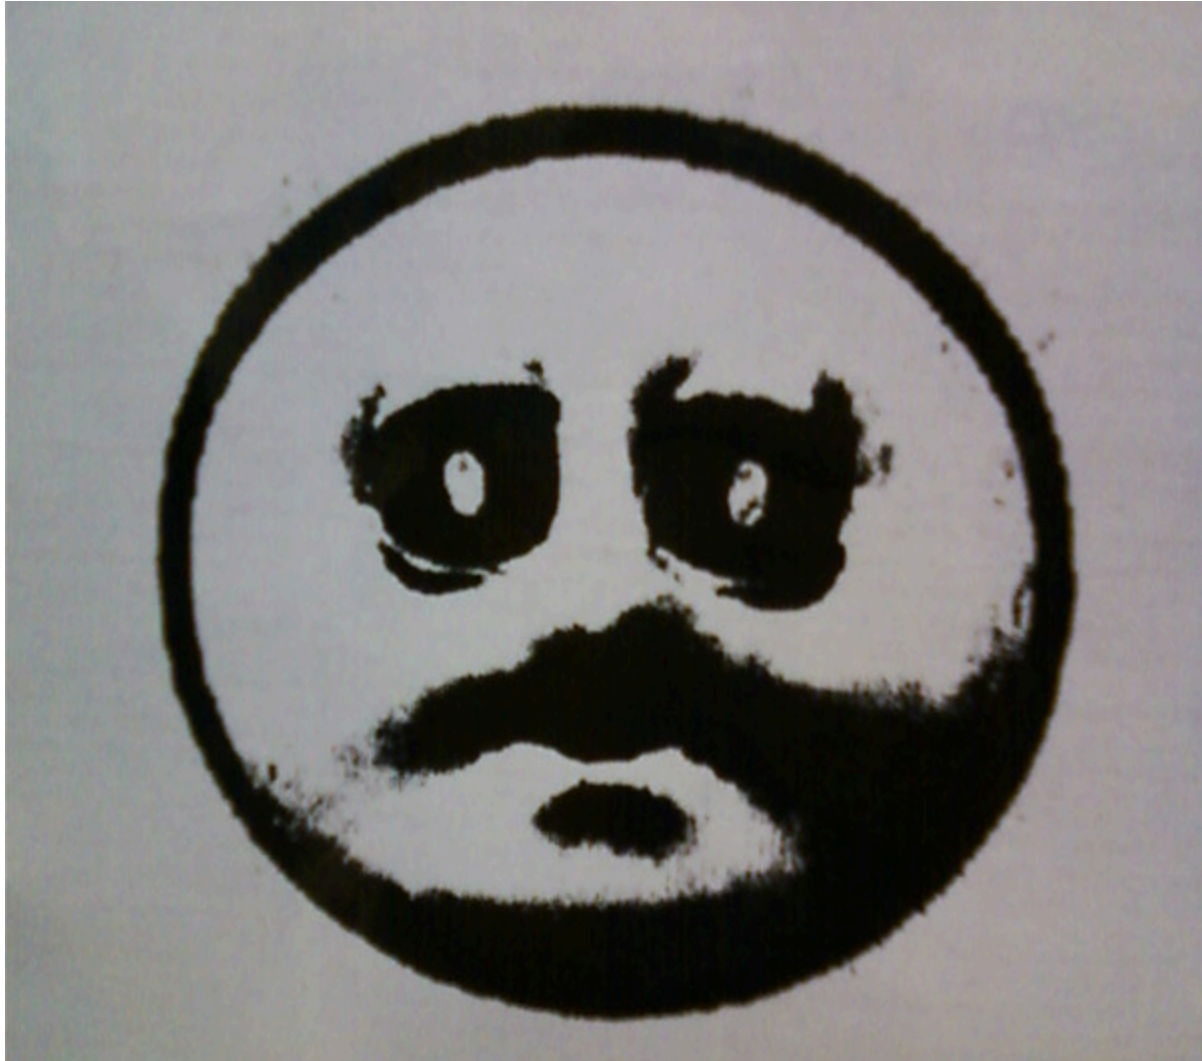

Response 3

Embrace

- Stop fucking talking about Kluh
- Normal Pokemon humans can tank enough electricity to power Vegas, this is most definitely an argument made by this user in Losers Round 3 of COT 3
- Hulk being resistant to Gamma blasts..

- "Even if Banner regresses to Savage Hulk, he'll further regress into Kluh because he's being attacked by a team composed of his friend Luke, which amounts to betrayal."

None of the rest of this response matters even a little bit.

Wolf

- [change da world my final message. Goodbye](#)

Overall

Wolf wins, because

Luke Cage and Greninja are objectively irrelevant compared to Savage Hulk, they cannot hurt him ever and they die in one hit.

Pikachu's electricity is not secretly at a level where it can instantly vaporize anything outside of the Pokemon universe, it is clearly not at that level, Pikachu clearly isn't going to vaporize anyone, and the idea that everything and everyone in Pokemon is just massively resistant to lightning and Pikachu would accidentally cause that is ridiculous.

Every argument about Hulk's behavior, motivation, or anything else is clearly in Wolf's favour, the claims made by embrace are clearly wrong and in some cases frankly ridiculous.

As such Savage Hulk will just solo the opposing team, they have no one capable of causing any significant harm to him whatsoever and the entire enemy team can be defeated in a single blow.
