Networks: Blast

Modules to be tested: Stablecoin, Lending, Native Yield.

Campaign ends Feb 22, 6 pm UTC

Steps

Module 1. Native lending market with Blast native yield

Step 1: Visit

https://alpha.zerolend.xyz/?marketName=proto_blast_sepolia_v3&+test.onez.cash+%28stablecoin%29= and connect your wallet

Step 2: If you have not added the Blast testnet RPC, add that

Step 3: Receive test tokens from the faucet: \$WETH

Step 4: Supply \$WETH on the respective lending market

Step 5: Borrow Rebasing USD for the borrowing market
