

JUSTICE FOR GEORGE FLOYD

To whomever it may concern:

I am taking time out of my day from my home of Santa Clarita, California to write about the recent events that have occurred in your city. I am demanding justice for George Floyd, a man who was killed in cold blood which, might I add, was caught on tape. There is proof that these officers murdered someone. You need to call it what it is: MURDER. Firing the officers involved is not enough. Officer Dereck Chauvin #1087 is guilty of murder, and the three other officers, are accomplices to this hate crime which took someone's LIFE. George Floyd and his family deserve true justice. Giving these officers paid leave even though they KILLED an innocent man is beyond inappropriate. They killed someone. Charge them with murder. They are murders. As a Southern Californian, I refuse to sit silently and watch how inappropriately this is being handled, ESPECIALLY because an innocent black man lost his life at the hands of your incompetent officers. I demand justice for George Floyd and I refuse to be silent until these officers are taken to court and charged for their crimes.
