

Privacy Policy for WhatsApp Contacts Exporter

Last updated: September 2026

WhatsApp Contacts Exporter ("the Extension") values your privacy.

1. Information We Collect:

The Extension only accesses your active WhatsApp Web tab locally to extract contact phone numbers and names into a spreadsheet (.xls) upon user request.

We collect your Google account email address solely to verify your subscription status (Free/PRO) against our Supabase backend and to facilitate the checkout process.

2. Data Storage and Third Parties:

No contact lists, conversations, phone numbers, or chat messages are sent to external servers, stored by us, or sold to third parties. All file creation occurs locally on the user's machine.

Payment processing is handled securely by Lemon Squeezy; we do not process or store credit card details.

3. Changes:

Any updates to this policy will be posted at this URL.
