

Privacy Policy for Motion Mate

Last Updated: 31/01/2025

Thank you for using **Motion Mate** ("the App"). Your privacy is important to us, and we are committed to protecting it. This Privacy Policy explains how the App handles user data, permissions, and other privacy-related practices. By using Motion Mate, you agree to the terms of this Privacy Policy.

1. Introduction

Motion Mate is an Android application that runs a foreground service to detect different types of motion (e.g., rotational shake, linear shake, flip, slide, etc.) and allows users to specify certain conditions and actions to be performed once the motion is detected (e.g., toggling the flashlight, opening an app, opening the notifications panel, skipping to the next media track, etc.).

2. Data Collection and Use

1. **No Personal Data Collected:**

Motion Mate does not collect, store, or share any personal information. All motion detection and any associated actions occur locally on your device.

2. **Motion Detection Data:**

The App processes device sensor data (e.g., accelerometer or gyroscope readings) to detect motion events. This processing happens in real time on your device and is not transmitted to any server or third party.

3. **Camera Permission (Flashlight Access):**

The App requires the "Camera" permission on Android because the Android operating system classifies flashlight control under camera hardware. Motion Mate only uses this permission to toggle your device's flashlight when you choose that action. No photos or videos are captured, stored, or transmitted.

3. How We Use Permissions

- **Camera Permission:**

Used solely to control the flashlight functionality on your device when triggered by an associated motion or gesture.

- **Foreground Service:**

The App runs as a foreground service so that it can continuously listen for motion events and execute user-defined actions without interruption.

We do not use any permissions for tracking or gathering user data. All permissions requested are strictly for the core functionality of the App.

4. Third-Party Services

Motion Mate does not integrate with any external services, analytics providers, or third-party advertising networks. Therefore, no personal or usage data is shared with third parties.

5. Data Security

Although Motion Mate does not collect or store personal data, we take reasonable steps to protect the App's integrity. We regularly update the App to address potential security vulnerabilities and maintain overall reliability.

6. Children's Privacy

Motion Mate does not knowingly collect personal information from children under the age of 13 (or the minimum age in your jurisdiction). Since Motion Mate does not collect user data, it inherently does not target or differentiate between users of any specific age.

7. Changes to This Privacy Policy

We may update this Privacy Policy from time to time. Any changes will be reflected by an updated "Last Updated" date at the top of this page. Your continued use of Motion Mate after any modifications to the Privacy Policy will constitute your acknowledgment of the modifications and your consent to abide by them.

8. Contact Us

If you have any questions, concerns, or suggestions regarding this Privacy Policy or Motion Mate, please contact us at:

Email: mwilky.dev@gmail.com

By using Motion Mate, you signify your acceptance of this Privacy Policy. If you do not agree to this policy, please do not use our App. Your continued use of the App following the posting of changes to this policy will be deemed your acceptance of those changes.
