Dear njytouch,

I have 4 LCD panels that I'm looking for driver boards for.
Three of them have a LVDS interface:

AU Optronics B150XG01
Samsung LTN141P2-L01
Samsung LTN154X3-L01

And one has a TTL interface

InnoLux AT102TN01 V.1

I am hoping for boards that accept YPbPr inputs for all but the Samsung LTN154X3-L01, which I would like to take either HDMI or VGA inputs.

If you could let me know what products would suit me best, especially if you have one compatible with the InnoLux AT102TN01 V.1, I would greatly appreciate it.

- ttsgeb

Dear ttsgeb,

Hi,

Thank you for your enquiry!

1 For B150XG01, please order here:

http://www.ebay.com/itm/R-RT6251-LCD-Controller-Board-Card-Kit-TV-PC-DVD-DIY-/270941629066?pt=COMP_EN_Networking_Components&hash=item3f15612a8a

For LTN141P2-L01 and LTN154X3-L01, please order here:

http://www.ebay.com/itm/LCD-Controller-logic-board-DIY-screen-display-monitor-/270941628355?pt=COMP_EN_Networking_Components&hash=item3f156127c3

Suitable inverter, LVDS cable and keypad will be included in the order. And we will program for you.

2 Suitable power adpater(12V, 4A) is required, you could order one from us too.

http://www.ebay.com/itm/Power-Adapter-Supply-Especially-our-LCD-controller-boards-US-cord-12V-4A-/270953905792?pt=Laptop_Adapters_Chargers&hash=item3f161c7e80

3 For AT102TN01 V.1, I am afraid we couldn't help you.

Regards,
Maria

Note to seller
AVLCD board: InnoLux AT102TN01 V.1 5451(Audio): Samsung LTN154X3-L01 DIY
Laptop-desktop: AU Optronics B150XG01 DIY Laptop-desktop: Samsung LTN141P2-L01

Dear ttsgeb,

Hi Timothy,

Thanks for your ordering and fast payment! We'll arrange for programming and testing later.

In general, items will be shipped out via China Post and we give $2.00 combined shipping discount for each controller+power adapter. But China Post takes a long way to go and for your order, we'll have to separate the items into two parcels for weight limits. Or if you don't need the discount, we could upgrade to DHL shipping automatically. Which way do you prefer?

Regards,

Christina

- njytouch

Dear njytouch,

If DHL will cost the same except for the $2 discount for combined shipping, I would prefer to do that.

- ttsgeb

Dear ttsgeb,

Hi,

OK!

We will upgrate DHL for you. Please remember to check the package.

Regards,
Maria

Dear ttsgeb,

Hi,

Congratulations to your successful delivery! Is everything OK for you?

Regards,
Maria

- njytouch

Dear njytouch,

Everything seems to be working well. The only issue I've had is with the built in CCL inverter on the HCR-N1 V1.1 Board. I appreciate that it's an all in one module, but because the screen I'm using is larger than what it was initially designed for; the wires for the CFL don't actually reach the plug. As such I haven't been able to actually test the board yet. Once I get an extension cable built, I'll get back to you on how it's working.

- ttsgeb

Hi,

Ok!

Thank you for your great support and welcome to our store next time!

Regards,
Maria
