Tips to Check for Distracting Applications on a PC Laptop*
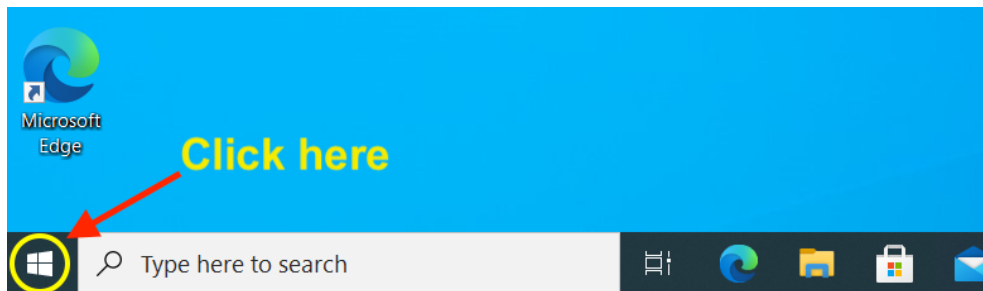

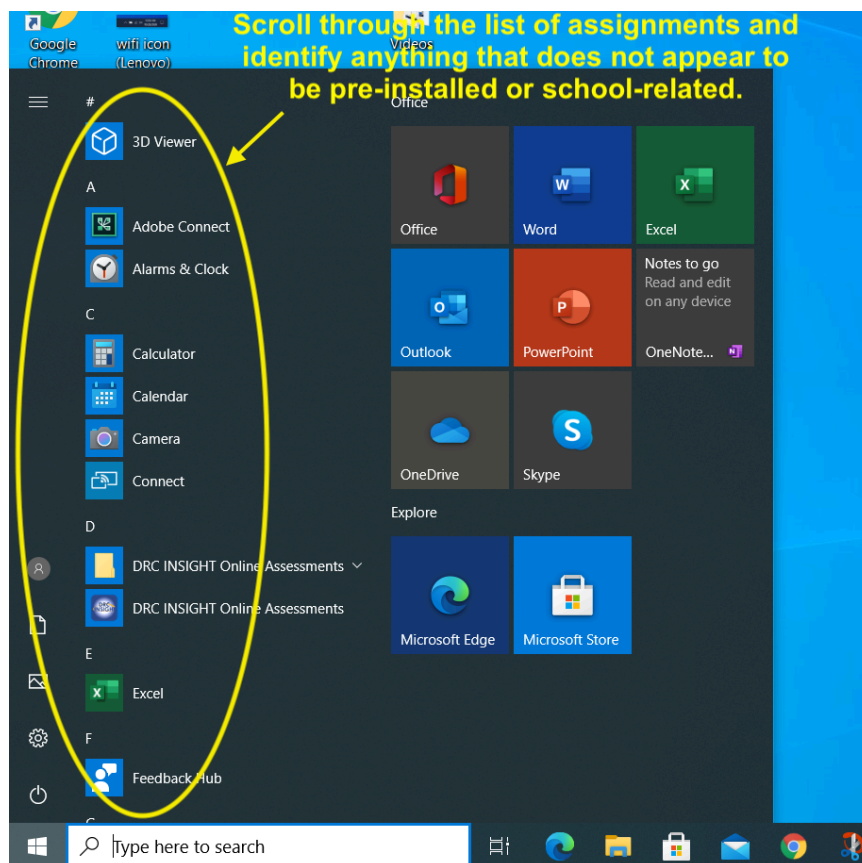

This document applies to PCs running Windows 10

If you discover applications on the school laptop that were not installed by UVA and you want to determine if the applications were used recently, one option is shown below.

1. Click the Start icon as shown in the screenshot below.

2. Click the Start button to reveal the applications on the computer as shown in the screenshot below.

A. Scroll until you review the entire list of applications.
B. If you determine that a non-school application is being used too frequently and you would like it to be uninstalled, we recommend that you contact UVA's Tech Support line (**225-286-1600**) for assistance.
