

The following Pokemon cannot be requested for fusions due to either a lack of detail to work with, high complexity, or such a strange/unique shape that it'd be difficult to adapt it elsewhere.

Pokemon that are **bolded** cannot be requested as the base Pokemon (the Pokemon whose body is used), but *can* be requested as the material (the Pokemon whose features are spliced onto the base). Pokemon that are *italicized* cannot be requested as the material, but *can* be requested as the base.

Gen 1

- Metapod
- Kakuna
- *Diglett (Both forms)*
- *Dugtrio (Both forms)*
- *Bellsprout*
- *Weepinbell*
