This account repeatedly spreads false and misleading information about aespa members

Select an Artist : aespa

Report Type: Fake News

Title: Misinformation about aespa

Contents of Report:

This account repeatedly spreads false and misleading information about aespa members and uses unrelated or misleading content to encourage hate and ridicule toward them.

The account has falsely accused Giselle of using a racial slur and spread fake information about her alleged health hiatus. It has also used a photo of another person and falsely identified her as Winter, while making insulting and body-shaming comments about Karina and other SM artists.

These posts repeatedly use false information, misrepresentation, body-shaming, and insulting statements to create negative narratives around aespa members and encourage harassment. Please investigate this account, take appropriate action, and help protect aespa members from continued malicious misinformation, harassment, and targeted attacks.
