Dear **[Ms. X]**,

I hope all is well. I'm writing to express my interest in the **Back-end Software Developer position at [your company]**.

I'm a Software Engineer with a 3+ years of experience with **Ruby on Rails [mentioned because it was explicit requirement in job description]** and a Bachelor's Degree in Computer Science.

Currently, I'm working as a Software Engineer in a company called **[XXX]** where I worked on multiple projects for major international clients, using **Ruby, Javascript, Android, mySQL and AWS**. My responsibility is to execute full life-cycle software development from planning and features extraction, through design, coding, and testing, to producing top-notch fully operational solutions in an microservice architecture.

I am currently looking for a new challenge to build leading edge **B2C** products that have the potential to improving and affecting millions of people's lives. **[Your company's product]** is a perfect match for what I'm looking for given your mission of **[XXX]** and my knowledge of **[stack]** that you are looking for.

Thanks for your time. I am looking forward to hearing from you.

Best, [your full name]
