READING (10)

Q.No.1) Read the given passage and answer the questions based on it. (1 X 05 =05)

That evening they were on the train from San Francisco to New York, which was three thousand seven hundred and eighty six miles away. In seven days the train would take them from the Pacific to the Atlantic Ocean.

The train steamed through California at full speed. It crossed steep mountain slopes, deep canyons and hair-raising curves moving through a few tunnels and bridges.

Suddenly the train slowed down as a herd of buffaloes charged across the railway track. The train was forced to stop till the procession passed like a great brown river. The herd took a full three hours to cross the track. Night had fallen by the time the train could move again.

1) How much is the distance between San Francisco and New York?

Ans. _____

2) How many days would the train take to reach New York from San Francisco?

Ans. _____

3) Name two Oceans mentioned in the passage.

Ans. - _____
