## Introduction

*"Welcome to the world, little creature. This is the world, the digital world. For one way or another, you were brought here. You're just at the entrance. Are you ready to enter it? You will have to be eventually. Don't delay, don't be scared, just embrace! It's more fun that way!"*

Welcome to Welcome To The Digital World! This solo TTRPG is made to help you naturally raise and develop your petz in the [Petz PC games](#)! It is meant to be played repeatedly!

For this RPG, you need...

- ★ This document!
- ★ Time to play each day (or as often as you want!).
- ★ A copy of the game Petz, any version, just choose your preferred version. (Mine is Petz 4, the collective fan choice) (Heavily recommended to have PetzA)
- ★ A pet from the game of your choice. It can be from the adoption center, from another person, a hexie, or something else. Preferably age 12, but can be started at any age!
- ★ Dice; a D4, D6, and then a coin to flip. A digital roller can work too. But aren't dice fun?
- ★ Another place to document/journal your journey through the digital world. Can be a forum ([there are Petz forums out there!](#)), something like Google Docs or Notion, or even a physical journal!

First, save a copy of this document! It's best to also save it somewhere in your Google Drive so you have quick access to it! You'll need this guide for each day you play (or if you age up your pet after every event).

Then, select your pet. Can be anything; from an adoption center pet, to a pet you got from someone else, to a hexie you created! It's up to you! This TTRPG is created to help you develop your pet's character!

This TTRPG takes place over a few days. Or you can skip it using PetzA, but it's intended to be played for a few real-life days.

For documenting/journaling, you can write from the perspective of the player or the pet! Make sure to write down things you think are worth documenting and/or sharing with others. You can have a public and private journal if you wish. Go into as much or as little detail as you like!

Now, that we have all of this out of the way, onto the TTRPG!

Ooh? A new friend? How exciting!

Just select a pet of yours you have and meet them! Can be petz from other campaigns of this TTRPG too!

## **Group Hangout**

I suggest for this, grab petz you already know and invite them over! But you can just select random petz and meet them!

## **Set Up A Party**

Oh! Sounds like you're ready to have a fun time!

Grab items you think would make fun party items and invite your friends (take out petz, preferably your friends)!

Then just have a fun time! Write down what happens, though!

## Ending

So, you reached the end of the doc! After a few days of playing this way, you'll have a bond or a developed pet!

We hope you enjoyed this TTRPG! We hope you create bonds and develop so many amazing petz!
