

Chronological order of all marvel movies and series

Note:

This document shows the chronological order of (almost) all Marvel live-action (and a few animated) movies and series. This is not necessarily the best watch order. (Fx it is recommended to watch the whole Earth-10005 before starting Earth-811) This list is not confirmed by any official movie makers of Marvel, and is based on marvel.fandom.com and more. There may be ambiguities about the order, so feel free to comment with proposals on how the list can be improved. I haven't watched all the 1970s and 80s releases yet, so there can be some mistakes here. Also, if I had no clue about the place in time, they are put on the release date.

If you are interested in a recommended watch order, you can visit my other list:
