     Moved by Helguera, Seconded by Pablo. Unanimously approved.
- IV. Cell Phone Policy
  - (Not Supported) <u>Backpack</u> was used in a classroom, but it wasn't effective. The phone holder seems to work. Proposal to eliminate it and there was no objection.
  - What if a phone is needed for a class? An alternate device should be provided for use.
  - \*\*Portable Storage Box It would be difficult for students to access if it is controlled by a certain person.
  - What about watches and earbuds?
  - \*\*Magnetic Pouches students are responsible for taking care of it. What if RHS doesn't do it? Every teacher should have a lock/unlock base in their class. Would watches and earbuds fit in there?
  - (Not Supported) <u>Velcro Pouches</u> seems like the same as putting in a backpack.
     Blocking WiFi signals seems to be violating FCC regulations.
  - (Not Supported) <u>Classroom Phone Holder</u> doesn't seem secure and what if a phone is stolen or broken from it falling? Who would be liable?
  - LSLC discussed and narrowed it down to 2 options
    - 1. Portable Storage Box
    - 2. Magnetic Pouches (likely Yondr)
  - What would you need to know or hear to help you make a decision?
    - 1. What would be the consequences?
    - 2. Might need separate meetings to discuss it with the various stakeholders. Afterschool? During School? Coffee with the Principal. 11/21?
      - a) Teachers
      - b) Students
      - c) Parents
    - 3. Need a detailed plan to present to stakeholders that they can comment on.
  - Need to make a decision before a certain date -
