Moved by Helguera, Seconded by Pablo. Unanimously approved.

IV. Cell Phone Policy

- (Not Supported) **Backpack** was used in a classroom, but it wasn't effective. The phone holder seems to work. Proposal to eliminate it and there was no objection.
- What if a phone is needed for a class? An alternate device should be provided for use.
- ****Portable Storage Box** It would be difficult for students to access if it is controlled by a certain person.
- What about watches and earbuds?
- ****Magnetic Pouches** - students are responsible for taking care of it. What if RHS doesn't do it? Every teacher should have a lock/unlock base in their class. Would watches and earbuds fit in there?
- (Not Supported) **Velcro Pouches** - seems like the same as putting in a backpack. Blocking WiFi signals seems to be violating FCC regulations.
- (Not Supported) **Classroom Phone Holder** - doesn't seem secure and what if a phone is stolen or broken from it falling? Who would be liable?
- LSLC discussed and narrowed it down to 2 options
 1. Portable Storage Box
 2. Magnetic Pouches (likely Yondr)
- What would you need to know or hear to help you make a decision?
 1. What would be the consequences?
 2. Might need separate meetings to discuss it with the various stakeholders. Afterschool? During School? Coffee with the Principal. 11/21?
 - a) Teachers
 - b) Students
 - c) Parents
 3. Need a detailed plan to present to stakeholders that they can comment on.
- Need to make a decision before a certain date -
