

Closings, Delays, Emergency Notifications

In the event of a school closing or delay, Central Valley CSD will notify registered parents, guardians, grade 9-12 students, and school employees via ParentSquare, the district's school-to-community communication tool. Students and employees are automatically enrolled in ParentSquare. Parents and guardians must be on file as authorized to receive communications related to their students. If you are authorized, but do not receive notifications, please reach out to your child's school to create an account.

Community members such as daycare providers, emergency responders, relatives, etc., can [join the Emergency Notifications group to receive emergency alerts](#).

The district will also post information on:
