C - Class Hour 3 (option 1): Motion and Simple Machines - Mrs. Meaghan Lundeen (Rm 3?)

In this course students will discover the laws of motion, force, gravity, and simple machines. As a former high school math teacher I feel that our kids need (and often lack) a strong foundation in these basic principles of physics. Understanding these concepts and the role they play in our world lays the groundwork for many topics in STEM education. To keep the learning fun and experimental we will use the "Motions

and Simple Machines” curriculum from The Good and The Beautiful as an outline for time together. Motion and Simple Machines – The Good and the Beautiful
